River.Space.Design Martin Prominski,Antje Stokman,Daniel Stimberg,Hinnerk Voermanek,Susanne Zeller,Katarina Bajc,Nengshi Zheng,2023-03-20 Urban riverbanks are attractive locations and highly prized recreational environments However they must meet the requirements of flood control open space design and ecology at the same time often a challenging task for the designer in very confined spaces The book the result of a study lasting several years subjects more than 60 exemplary projects to a comparative analysis The result is a systematic catalogue of strategies and innovative design tools The designer and planner thus obtains an overview of the range of design possibilities Eight new case studies from China Italy New Zealand the Netherlands Germany and Switzerland were selected and added for the enlarged edition of this reference work on riverbank design

River.Space.Design Martin Prominski,Antje Stokman,Daniel Stimberg,Hinnerk Voermanek,Susanne Zeller,2012-12-13 Urban riverbanks are attractive locations and highly prized recreational environments The designs of urban river landscapes must fulfill a broad range of requirements flood control open space design and ecology are as a rule the three dominant themes and they must often be reconciled within a very restricted space The river must be understood as a process governed by changing water levels shifting seasons erosion and sedimentation the river environment is not a static entity but constantly changing the design must be flexible and take this into account This book is the product of a multi year study that subjected more than fifty Western European projects to a comparative analysis The result is a systematic catalog of effective strategies and innovative design elements First designers and planners are given an overview of the broad and varied spectrum of design possibilities The book s process oriented approach is especially helpful where the focus is on long term sustainable measures The publication consists of two linked volumes that enable the reader to consult the systematic catalog and the case study section side by side The easy to navigate structure and an extensive glossary provide further guidance while the work s highly distinctive design makes it visually appealing as well and invites the reader to leaf through and explore it

River, Space, Design Martin Prominski,Antje Stokman,Daniel Stimberg,Susanne Zeller,2012 River Space Design is a systematically organised reference book for the design and planning of river spaces Urban river landscapes need to unite a broad range of requirements most notably flood control ecological considerations and open space design often within tight space constraints Taking a processoriented approach this book offers concrete guidelines for sustainable longterm interventions Arranged in two volumes this book contains a comparative analysis of more than 50 successful projects alongside rivers and streams in Europe and dissects them into their individual design elements The result is a catalogue of effective design strategies and tools that provides readers with an attractive and inspiring overview of the broad and varied spectrum of design possibilities for river spaces Each project is illustrated with photographe taken especially for the book and each principle is illustrated with explanatory diagrams The book s interdisciplinary structure is of interest to landscape architects architects engineers urban planners and hydrologists alike

River.Space.Design Martin Prominski,Antje Stokman,Daniel Stimberg,Hinnerk Voermanek,Susanne Zeller,Katarina Bajc,2017-05-22 Urban riverbanks are attractive locations and highly prized recreational environments However they must meet the requirements of flood control open space design and ecology at the same time often a challenging task for the designer This book is the product of extensive research that identified some 60 best practice examples and subjected them to a comparative analysis The result is a systematic catalog of effective strategies and innovative design tools that provides readers with an inspiring overview of the broad spectrum of design possibilities for river spaces Each project is illustrated with photographs taken especially for the book and each design strategy and tool is explained by diagrams This revised edition introduces ten new case studies chiefly from North America

Cities & Rivers Iñaki Alday,2024-04-29 A selection of architecture landscape and urbanism works from aldayjover architecture and landscape an office based in Barcelona Spain and Virginia in the United States A collection of projects designed from their local and territorial DNA that respond in new ways to the global socio ecological crisis in which we have been engaged with since the beginning of the 21st century Featured works include public spaces architecture and urban studies that incorporate natural dynamics and that also emphasize recovering in some cases legal access among all citizens and equal access to the city and its opportunities The works presented are particularly renowned given their leadership role in a new approach to the relationship between cities and rivers in which natural dynamics become part of the public space eliminating the effect of catastrophe

Research in Landscape Architecture Adri van den Brink,Diedrich Bruns,Hilde Tobi,Simon Bell,2016-11-10 This book looks at research methods that are specific to and for landscape architecture and contributes to the further development of landscape architecture as an academic discipline in its own right

River Cities in Asia Rita Padawangi,Paul Rabé,Adrian Perkasa,2025-10-01 River Cities in Asia uncovers the intimate relationship between rivers and cities in Asia from a multi disciplinary perspective in the humanities and the social sciences As rivers have shaped human settlement patterns economies culture and rituals so too have humans impacted the flow and health of rivers In Asia the sheer scale of urbanization increases the urgency of addressing challenges facing urban rivers leading to the importance of historically socially and culturally relevant solutions However cities are also uneven landscapes of power affecting chances to achieve holistic ecological approaches The central premise of River Cities in Asia is that a river city is one where proximity between a river and a city exists across time and space natural and social dimensions Recognition of these deep connections can help to better contextualize policy solutions aimed at rivers and their ecologies including human life
