in charge carmakers and much of American industry lost their single minded focus on product excellence and their competitive advantage Decline soon followed In 2001 General Motors hired Lutz out of retirement with a mandate to save the company by making great cars again As vice chairman he launched a war against the penny pinching number crunchers who ran the company by the bottom line and reinstated a focus on creativity design and cars and trucks that would satisfy GM's customers Lutz's commonsense lessons combined with a generous helping of fascinating anecdotes will inspire readers in any industry [The Blue and Gold](#) ,1947 *Simulation based acquisition a new approach* , **Riding the Roller Coaster** Charles K.
