Tracing Back the Radiance Robert E. Buswell, Jr.,1991-11-01 Chinul 1158 1210 was the founder of the Korean tradition of Zen He provides one of the most lucid and accessible accounts of Zen practice and meditation to be found anywhere in East Asian literature Tracing Back the Radiance an abridgment of Buswell s Korean Approach to Zen The Collected Works of Chinul combines an extensive introduction to Chinul s life and thought with translations of three of his most representative works

Currents and Countercurrents Robert E. Buswell, Jr.,2005-05-31 Soon after the inception of Buddhism in the sixth or fifth century B C E the Buddha ordered his small band of monks to wander forth for the welfare and weal of the many a command that initiated one of the greatest missionary movements in world religious history But this account of a monolithic missionary movement spreading outward from the Buddhist homeland of India across the Asian continent is just one part of the story The case of East Asian Buddhism suggests another tale one in which the dominant eastward current of diffusion creates important eddies or countercurrents of influence that redound back toward the center These countercurrents have had significant even profound impact on neighboring traditions In East Asia perhaps the most important countercurrent of influence came from Korea the focus of this volume Chapters examine the role played by the Paekche kingdom in introducing Buddhist material culture especially monastic architecture to Japan and the impact of Korean scholiasts on the creation of several distinctive features that eventually came to characterize Japanese Pure Land Buddhism The lives and intellectual importance of the monks Sungnang fl ca 490 and Wonch uk 613 696 are reassessed bringing to light their role in the development of early intellectual schools within Chinese Buddhism Later chapters discuss the influential teachings of the semi legendary master Musang 684 762 the patriarch of two of the earliest schools of Ch an the work of a dozen or so Korean monks active in the Chinese Tient ai tradition and the Huiyin monastery

Numinous Awareness is Never Dark Chinul,2016 [Reflections of a Zen Buddhist Nun](#) Kim Iryöp,2014-03-31 The life and work of Kim Iry p 1896 1971 bear witness to Korea s encounter with modernity A prolific writer Iry p reflected on identity and existential loneliness in her poems short stories and autobiographical essays As a pioneering feminist intellectual she dedicated herself to gender issues and understanding the changing role of women in Korean society As an influential Buddhist nun she examined religious teachings and strove to interpret modern human

existence through a religious world view Originally published in Korea when Iry p was in her sixties Reflections of a Zen Buddhist Nun n sudoin i hoesang makes available for the first time in English a rich intimate and unfailingly candid source of material with which to understand modern Korea Korean women and Korean Buddhism Throughout her writing Iry p poses such questions as How does one come to terms with one s identity What is the meaning of revolt and what are its limitations How do we understand the different dimensions of love in the context of Buddhist teachings What is Buddhist awakening How do we attain it How do we understand God and the relationship between good and evil What is the meaning of religious practice in our time We see through her thought and life experiences the co existence of seemingly conflicting ideas and ideals Christianity and Buddhism sexual liberalism and religious celibacy among others In Reflections of a Zen Buddhist Nun Iry p challenges readers with her creative interpretations of Buddhist doctrine and her reflections on the meaning of Buddhist practice In the process she offers insight into a time when the ideas and contributions of women to twentieth century Korean society and intellectual life were just beginning to emerge from the shadows where they had been obscured in the name of modernization and nation building

New Perspectives in Modern Korean Buddhism Hwansoo Ilmee Kim,Jin Y. Park,2022-12-01 New Perspectives in Modern Korean Buddhism moves beyond nationalistic modernist and ethnocentric historiographies of modern Korean Buddhism by carefully examining individuals lived experiences the institutional dimensions of Korean Buddhism and its place in transnational conversations Drawing upon rich archives as well as historical anthropological and literary approaches the book examines four themes that have gained attention in recent years perennial existential concerns and the persistent relevance of religious practice the role of female Buddhists clerical marriage and scandals and engagement with secular society The book reveals the limits of metanarratives such as those of colonialism nationalism and modernity in understanding the complex and contested identities of both monastics and laity thus demanding that we diversify the methods by which we articulate the history of modern Korean Buddhism

Stone,2003-05-31 Original enlightenment thought hongaku shiso dominated Buddhist intellectual circles throughout Japan s medieval period Enlightenment this discourse claims is neither a goal to be achieved nor a potential to be realized but the true status of all things Every animate and inanimate object manifests the primordially enlightened Buddha just as it is Seen in its true aspect every activity of daily life eating sleeping even one s deluded thinking is the Buddha s conduct Emerging from within the powerful Tendai School ideas of original enlightenment were appropriated by a number of Buddhist traditions and influenced nascent theories about the kami local deities as well as medieval aesthetics and the literary and performing arts Scholars and commentators have long recognized the historical importance of original enlightenment thought but differ heatedly over how it is to be understood Some tout it as the pinnacle of the Buddhist philosophy of absolute non dualism Others claim to find in it the paradigmatic expression of a timeless Japanese spirituality According other readings it represents a dangerous anti nomianism that undermined observance of moral precepts precipitated a decline in Buddhist scholarship and denied the need for religious discipline Still others denounce it as an authoritarian ideology that by sacralizing the given order has in effect legitimized hierarchy and discriminative social practices Often the acceptance or rejection of original enlightenment thought is seen as the fault line along which traditional Buddhist institutions are to be differentiated from the new Buddhist movements Zen Pure Land and Nichiren that arose during Japan s medieval period Jacqueline Stone s groundbreaking study moves beyond the treatment of the original enlightenment doctrine as abstract philosophy to explore its historical dimension Drawing on a wealth of medieval primary sources and modern Japanese scholarship it places this discourse in its ritual institutional and social contexts illuminating its importance to the maintenance of traditions of lineage and the secret transmission of knowledge that characterized several medieval Japanese elite culture It sheds new light on interpretive strategies employed in pre modern Japanese Buddhist texts an area that hitherto has received a little attention Through these and other lines of investigation Stone problematizes entrenched notions of corruption in the medieval Buddhist establishment Using the examples of Tendai and Nichiren Buddhism and their interactions throughout the medieval period she calls into question both overly facile distinctions between old and new Buddhism and the long standing scholarly assumptions that have perpetuated them This study marks a significant contribution to ongoing debates over definitions of Buddhism in the

Buddhism and Shint in Japanese culture **Doctrine and Practice in Medieval Korean Buddhism** ,2016-11-30 ich n 1055 1101 is recognized as a Buddhist master of great stature in the East Asian tradition Born a prince in the medieval Korean state of Kory 960 1279 he traveled to Song China 960 1279 to study Buddhism and later compiled and published the first collection of East Asian exegetical texts According to the received scholarly tradition after returning to Korea ich n left the Hwa m Huayan school to found a new Ch nt ae Tiantai school when he realized that the synthesis between doctrinal learning and meditative practice in the latter would help bring together the discordant sects of Kory Buddhism In the late twentieth century however scholars began to question the assertion that ich n forsook one school for another arguing that his writings assembled in The Collected Works of State Preceptor Taegak Taegak kuksa munjip do not portray a committed sectarian but a monk dedicated to developing a sophisticated and rigorous system of monastic education that encompassed all Buddhist intellectual traditions In this first comprehensive study of ich n s life and work in English Richard McBride presents translations of select lectures letters essays and poetry from The Collected Works to provide a more balanced view of ich n s philosophy of life and understanding of key Buddhist teachings The translations center on the monk s activities in the pan East Asian Buddhist world and his compilation of scholarly texts writings related to his interactions with royalty and correspondence with his Chinese mentor Jinshui Jingyuan 1011 1088 By incorporating ich n s work associated with doctrinal Buddhism and his poetry McBride clearly shows that even in his most personal work ich n did not abandon Hwa m teachings for those of the Ch nt ae but rather he encouraged monks to blend the best learning from all doctrinal traditions with meditative practice The Kingship of Jesus in the Gospel of John Sehyun Kim,2018-08-21 This book studies kingship with reference to the Johannine Jesus Postcolonialism leads us to an avenue from which to read this Gospel in the more complex and wider context of the hybridized Jewish and Greco Roman worlds of the Roman Empire in the first century CE This provides a new perspective on the kingship of the Johannine Jesus whose kingly identity is characterized by hybridized christological titles For the Johannine readers in the first century who were exploited oppressed yet at odds with both the colonizer and the colonized in the Roman Empire this Gospel was deemed to reveal his identity Using many christological titles it presented Jesus as the universal king going beyond the Jewish Messiah s and the Roman emperors and also as the decolonizer who came to his own world to liberate his people from the darkness In this respect the ideology of the Johannine emphasizes that love peace freedom service of the center for the margins and forgiveness are the ruling forces in the new world where Jesus reigns as king Raising an awareness of these ideologies John s gospel asks readers to overcome the conflicting world shrouded in darkness thenceforth entering the new Johannine world The Korean Tradition of Religion, Society, and Ethics Chai-sik Chung,2016-11-10 By making Korea a central part of comparative history of East Asian religion and society this book traces the evolution of Korean religion from the oldest representation to that of the current day by utilizing wide ranging interdisciplinary and comparative resources This book presents a holistic view of the enduring

religious tradition of Korea and its cultural and social significance within the wider horizons of modern and globalizing changes. Reflecting nearly five decades of the author's work on the subject, it presents an understanding of the main current in Korean religion and social thought throughout history. It then goes on to examine discourses on values and morality involving the relationship between religion and society, in particular the human meaning of economy and society, which is one of the most central and practical problems in the contemporary world with global relevance beyond Korea and Asia. Addressing the overview of the Korean religious tradition in the context of its impact on the making of modern society and economy, this book will appeal to students and scholars of Religious Studies, Korean Studies and Asian Studies.
