Robert A. M. Stern Architects Robert A. M. Stern, 2015-01-06 History is the lens through which Robert A M Stern and his fifteen design partners envision an architecture for today Robert A M Stern Architects Buildings and Projects 2010 2014 is the seventh volume in a series that encompasses the breadth of the firm's work since Stern's earliest projects in the mid 1960s Emphasizing the output of the office over the past five years this volume covers the most globalized period of practice so far Featuring profiles of well over 100 designs built domestically and abroad Robert A M Stern Architects Buildings and Projects 2010 2014 includes significant projects in Asia from China to India In the United States the firm's educational cultural commercial religious and residential work continues to broaden its exploration of traditional and contemporary architectural expression This volume presents the firm's continued influence on campuses across the United States reflecting the position that education holds in its ethic with new additions to Drexel University in Philadelphia Wake Forest University in Winston Salem North Carolina and University of Colorado Boulder The office also remains key to the ongoing development of its home in New York City with new residential towers on the High Line and in Greenwich Village

Reflections on Architecture, Society and Politics Graham Cairns, 2016-10-04 Reflections on Architecture Society and Politics brings together a series of thirteen interview articles by Graham Cairns in collaboration with some of the most prominent polemic thinkers and critical practitioners from the fields of architecture and the social sciences including Noam Chomsky Peggy Deamer Robert A M Stern Daniel Libeskind and Kenneth Frampton Each chapter explores the relationship between architecture and socio political issues through discussion of architectural theories and projects citing specific issues and themes that have led to and will shape the various aspects of the current and future built environment Ranging from Chomsky's examination of the US Mexico border as the architecture of oppression to Robert A M Stern's defence of projects for the Disney corporation and George W Bush this book places politics at the center of issues within contemporary architecture

Paradise Planned Robert A.M. Stern, David Fishman, Jacob Tilove, 2013-12-03 Paradise Planned is the definitive history of the garden suburb a phenomenon that originated in England in the late eighteenth century was quickly adopted in the United States and northern Europe and gradually proliferated throughout the world These bucolic settings offered an ideal lifestyle typically outside the city but accessible by streetcar train and automobile Today the principles of the garden city movement are once again in play as retrofitting the suburbs has become a central issue in planning Strategies are emerging that reflect the goals of garden suburbs in creating metropolitan communities that embrace both the intensity of the city and the tranquility of nature Paradise Planned is the comprehensive encyclopedic record of this movement a vital contribution to architectural and planning history and an essential recourse for guiding the repair of the American townscape

Pedagogy and Place Robert A. M. Stern, Jimmy Stamp, 2016-01-01 Marking the centennial of the 1916 establishment of a professional program Pedagogy and Place is the definitive text on the history of the

Yale School of Architecture Robert A M Stern current dean of the school and Jimmy Stamp examine its growth and change over the years and they trace the impact of those who taught or studied there as well as the architecturally significant buildings that housed the program on the evolution of architecture education at Yale Owing to the impressive number of notable practitioners who have attended or been affiliated with the school this book also contributes a history beyond Yale of the architecture profession in the twentieth century Featuring extensive archival research and illuminating firsthand accounts from alumni faculty and administrators this well rounded and engaging narrative is richly illustrated with historic photos of the school and its studios images of student work and important architectural achievements on and off campus

Diller Scofidio + Renfro Edward Dimendberg, 2013-03-20 In *Diller Scofidio Renfro Architecture after Images* Edward Dimendberg offers the first comprehensive treatment of one of the most imaginative contemporary design studios Since founding their practice in 1979 Elizabeth Diller and Ricardo Scofidio have integrated architecture urban design media art and the performing arts in a dazzling array of projects which include performances art installations and books in addition to buildings and public spaces At the center of this work is a fascination with vision and a commitment to questioning the certainty and security long associated with architecture Dimendberg provides an extensive overview of these concerns and the history of the studio revealing how principals Elizabeth Diller Ricardo Scofidio and Charles Renfro continue to expand the definition of architecture question the nature of space and vision in contemporary culture and produce work that is endlessly surprising and rewarding from New York's High Line to *Blur* an artificial cloud and *Facsimile* a video screen that moves around a building facade Dimendberg also explores the relation of work by DS R to that by earlier modernists such as Marcel Duchamp and John Hejduk He reveals how the fascination of the architects with evolving forms of media technology and building materials has produced works that unsettle distinctions among architecture and other media Based on interviews with the architects their clients and collaborators as well as unprecedented access to unpublished documents sketchbook entries and archival records *Diller Scofidio Renfro* is the most thorough consideration of DS R in any language Illustrated with many previously unpublished renderings in addition to photos from significant contemporary photographers this book is an essential study of one of the most significant and creative architecture and design studios working today

Why Place Matters Wilfred M. McClay, Ted V. McAllister, 2014-02-25 Contemporary American society with its emphasis on mobility and economic progress all too often loses sight of the importance of a sense of place and community Appreciating place is essential for building the strong local communities that cultivate civic engagement public leadership and many of the other goods that contribute to a flourishing human life Do we in losing our places lose the crucial basis for healthy and resilient individual identity and for the cultivation of public virtues For one can't be a citizen without being a citizen of some place in particular one isn't a citizen of a motel And if these dangers are real and present ones are there ways that intelligent public policy can begin to address them constructively by means of reasonable and democratic innovations that are likely to attract

wide public support Why Place Matters takes these concerns seriously and its contributors seek to discover how given the American people as they are and American economic and social life as it now exists and not as those things can be imagined to be in some utopian scheme we can find means of fostering a richer and more sustaining way of life The book is an anthology of essays exploring the contemporary problems of place and placelessness in American society The book includes contributions from distinguished scholars and writers such as poet Dana Gioia former chairman of the National Endowment for the Arts geographer Yi Fu Tuan urbanist Witold Rybczynski architect Philip Bess essayists Christine Rosen and Ari Schulman philosopher Roger Scruton transportation planner Gary Toth and historians Russell Jacoby and Joseph Amato

Philip Johnson and His Mischief Christian Bjorne, The Images Publishing Group, 2014-04-04 In the world of modern art the idea of appropriation or the conscious manipulation of the recognised world of another artist has long been accepted as a legitimate strategy in criticism of the tradition of art authorship challenging the context of viewing contemporary work and the manipulation of omnipresent media images The world of art itself is fair game to be pillaged or mined in the production of new art but there is almost no recognised equivalent aesthetic in architecture Philip Johnson consistently dealt with the concept of appropriation and used it as a design strategy from the very beginning of his illustrious career A singular taste maker Philip Johnson influenced art architecture and design during the second half of the 20th century Philip Johnson and His Mischief Appropriation in Art and Architecture looks at the concept of appropriation and how Johnson's style was influenced first by his mentor Mies van der Rohe and then by post modern ideas and artists This title serves to review Johnson's body of work and show that far from being a weakness his use of appropriation was a major part of his innovative success Contemporary Architects Muriel Emanuel, 2016-01-23 **Robert Adam** Richard John, 2010 Monica Townsend

enjoyed living the quiet life of a book editor but from the moment she stepped through her office door one evening everything changed Kidnapped at gunpoint she was held hostage at an abandoned warehouse praying her life would be spared as shots rang through the air Police Officer Chase Travers was on duty when the call came in Being the first officer at the scene he didn't anticipate the sight awaiting him three dead men sprawled on the warehouse floor Upon further inspection of the premises he discovered a barely conscious Monica Townsend and stayed by her side until the paramedics arrived In the hospital later that evening supposed to be returning home to his wife and two sons Chase felt prompted to stay at Monica's bedside to ensure her safety In the still of the night a gunshot rang out in the hospital corridor Chase and Monica escape and begin running for their lives but they face an even bigger challenge as they battle an attraction to each other which intensifies as each hour passes Will they be able to withstand temptation or in the heat of the moment after one devastating phone call will they give in changing their lives forever Saving America's Cities Lizabeth Cohen, 2019-10-01 An incisive treatment of the entire urban planning world in America in the last half of the 20th century Alan Ehrenhalt The New York Times In twenty first century America some cities are flourishing and others are struggling but they all must contend with

deteriorating infrastructure economic inequality and unaffordable housing Cities have limited tools to address these problems and many must rely on the private market to support the public good It wasn't always this way For almost three decades after World War II even as national policies promoted suburban sprawl the federal government underwrote renewal efforts for cities that had suffered during the Great Depression and the war and were now bleeding residents into the suburbs In *Saving America's Cities* Lizabeth Cohen follows the career of Edward J Logue A Yale trained lawyer rival of Robert Moses and sometime critic of Jane Jacobs Logue saw renewing cities as an extension of the liberal New Deal He worked to revive a declining New Haven became the architect of the New Boston of the 1960s and later led New York State's Urban Development Corporation which built entire new towns including Roosevelt Island in New York City Logue's era of urban renewal has a complicated legacy Neighborhoods were demolished and residents dislocated but there were also genuine successes and progressive goals *Saving America's Cities* is a dramatic story of heartbreak and destruction but also of human idealism and resourcefulness opening up possibilities for our own time Engrossing *The Wall Street Journal* Cohen sketches Logue vividly illuminating his forcefulness his passion his masculine confidence *The Nation* A complex portrait *The Boston Globe* An essential read *Library Journal* starred review

London's 'Big Bang' Moment and its Architectural Conversations Stephen Rosser, 2025-06-30 This book explores the topic of architecture as a component of public discourse focussing on the reception of four high profile developments in the City of London the UK capital's financial district dating from the final years of the twentieth century During this time the City's mode of operation culture and built environment were all transformed as a result of the market deregulation process labelled Big Bang It was also a period which saw the subject of architecture attracting public and media attention becoming a prominent feature of national conversation The book examines the extensive and often contentious discourse generated by the four case study projects It looks at how these projects were viewed and interpreted retrospectively when they had become part of the City's long and rich history Topics explored include building and urban form on the eve of the millennium the place of new development in a setting of unique historic importance the iconic building and celebrity architect and the role of then Prince Charles as an architectural critic Also referenced are many of the broader issues of the day including the Thatcher government policies and the preoccupations concerning London's infrastructure public realm inner city areas and inequalities Furthermore ranging across the discourse is the theme of the relationship between buildings and global finance foreshadowing later controversies concerning London's post millennial towers and their impact on the capital's skyline The book will be of interest to researchers and students of late twentieth century British architecture and urban development London's history and UK public discourse in the 1980s a decade of profound political economic and social change

A Critical History of Contemporary Architecture Dr Elie G Haddad, Asst Prof David Rifkind, Ms Sarah Deyong, 2014-03-28 This book provides a comprehensive critical overview of the developments in architecture from 1960 to 2010 The first section provides a

presentation of major movements in architecture after 1960 and the second a geographic survey that covers a wide range of territories around the world This book not only reflects the different perspectives of its various authors but also charts a middle course between the aesthetic histories that examine architecture solely in terms of its formal aspects and the more ideological histories that subject it to a critique that often skirts the discussion of its formal aspects *The Lists*, 2008

In The Post-Urban World Tigran Haas, Hans Westlund, 2017-10-16 Winner of the Regional Studies Association's Best Book Award 2018 In the last few decades many global cities and towns have experienced unprecedented economic social and spatial structural change Today we find ourselves at the juncture between entering a post urban and a post political world both presenting new challenges to our metropolitan regions municipalities and cities Many megacities declining regions and towns are experiencing an increase in the number of complex problems regarding internal relationships governance and external connections In particular a growing disparity exists between citizens that are socially excluded within declining physical and economic realms and those situated in thriving geographic areas This book conveys how forces of structural change shape the urban landscape In *The Post Urban World* is divided into three main sections Spatial Transformations and the New Geography of Cities and Regions Urbanization Knowledge Economies and Social Structuration and New Cultures in a Post Political and Post Resilient World One important subject covered in this book in addition to the spatial and economic forces that shape our regions cities and neighbourhoods is the social cultural ecological and psychological aspects which are also critically involved Additionally the urban transformation occurring throughout cities is thoroughly discussed Written by today's leading experts in urban studies this book discusses subjects from different theoretical standpoints as well as various methodological approaches and perspectives this is alongside the challenges and new solutions for cities and regions in an interconnected world of global economies This book is aimed at both academic researchers interested in regional development economic geography and urban studies as well as practitioners and policy makers in urban development

Louis Kahn Mateo Kries, Jochen Eisenbrand, Stanislaus von Moos, 2012 The American architect Louis Kahn 1901-1974 is regarded as one of the great master builders of the twentieth century With complex spatial compositions an elemental formal vocabulary and a choreographic mastery of light Kahn created buildings of archaic beauty As the first comprehensive publication on this architect in 20 years the book *Louis Kahn The Power of Architecture* presents all of his important projects It includes essays by prominent Kahn experts and an expansive illustrated biography with many new facts and insights about Kahn's life and work In a number of interviews leading architects such as Frank Gehry Renzo Piano Peter Zumthor and Sou Fujimoto underline Kahn's significance in today's architectural discourse An extensive catalogue of works features original drawings and architectural models from the Kahn archive The compendium is further augmented by a portfolio of Kahn's travel drawings as well as photographs by Thomas Florschuetz which offer completely new views of the Salk Institute and the Indian Institute of Management *Robert A.M.
