

## "CARRIAGE CONTROL"

Only on the Royal HH can the carriage be adjusted to the proper tension to suit the individual job. Turn the little knob toward the rear and the dial on the left side of the carriage moves toward the higher numbers. The carriage tension is increased for fast columnar tabulation. Turn the knob toward front and the dial moves toward the lower numbers. The carriage is light and responsive—ideal for general secretarial work. Whatever your needs you can personalize the carriage return to suit your individual requirements.

## "MAGIC" TABULATOR

This feature, exclusive on the Royal HH Model, is specially designed to give you the advantage of both finger and palm tabulation. When you wish to tabulate you may either touch the conveniently located tab key with the little finger of your right hand or activate the palm tab with the side of your hand. In either case, your fingers do not leave the important home row position. Thus with this control, tabulating on the HH Model is done quickly without reaching and with no break in typing rhythm.
