Outlook, 2008-04-08 **The JailBird Diet** Ken Smukler, 2023-06-23 Shaped by the unique stories of my time in federal custody the JailBird Diet takes the reader into the world of incarceration that challenges the mind body and spirit at every turn. Out of the shock and awe of prison's daily rituals comes a radical life change: the cleansing regimens, superfoods and feeding disciplines I used to confront this new world and achieve radical weight loss. JailBird defines the tools of my diet journey that drove my 100 pound weight loss and shaped a new me. Based on the food and activity logs I kept in my daily prison journal, the JailBird Diet also provides a week by week story of the journey from my first day of surrender to the last days when the pandemic and solitary confinement threatened to leave me just pounds from my weight goal. In so doing it provides the tools to replicate this kind of weight loss in the free world. It contains the best of the papers presented by 45 delegates from 12 countries: UK, India, USA, Canada, Italy, France, Ireland, Australia, Romania, Japan, Germany, Portugal, involving both established academics and new scholars. The collection is divided into three parts: Part 1 Medieval and Early Modern Cities, Performance and Poetry; Part 2 Defining Urban Space, the Metropolis and the Provincial; and Part 3 Modern and Postmodern Cities, Marginal Urban Identities. The chapters explore the nature of the modern city in literature, history, film and culture from its origins in the early modern period to post

modern dislocations and considers the city as a context within which literature is created structured and inspired and as a space within which distinct voices and genres emerge Much interest has developed recently on the city and its contexts but there is a tendency to focus on London for example there is the journal *Literary London Interdisciplinary Studies in the Representation of London* and the annual *Literary London Conference* a major conference that has run since 2002 This collection fills an important gap in the market by having a truly global focus Joan Fitzpatrick's *The Idea of the City* represents a fascinating snapshot of the current state of literary urban studies Conference proceedings can often seem diffuse or tokenistic but this collection offers unity on several levels For a start many of the contributors ask similar questions of their material approaching it with an informed awareness of the ways in which the city has been theorised as well as actually traversed from the medieval period to the present While one would expect work of this type and standard from established and widely published scholars such as Pamela Gilbert and Julian Wolfreys it is refreshing to see how new researchers are blending the cartographic with the psychological to raise important questions about the perception analysis and mythologisation of urban and metropolitan space The collection is impressively eclectic ranging from Petrarch's *Avignon* to modern Los Angeles and from 18th century Lichfield to operative imaginings of Venice As I said however the collection is unified at a deep level by the contributors' shared interest in city writing and by their conviction that there is a complex relationship between space place and self This means that the book would be of use and interest to those working on individual writers including contemporary novelists such as Niall Griffiths on whom little has yet been published and in the more general areas of urban and cultural studies and critical theory The collection as a whole allows the reader to revisit the ideas of influential works from the previous decade such as Keith Tester's *The Flâneur* 1994 Sophie Watson and Katherine Gibson's *Postmodern Cities and Spaces* 1995 and Susana Onega and John Stotesbury's *London in Literature Visionary Mappings of the Metropolis* 2002 It is therefore both a useful round up of established ideas from various city-centred disciplines and a starting point for the fresh consideration of enduringly suggestive material Dr Nick Freeman Loughborough University Author of *Conceiving the City London Literature and Art 1870-1914* In this substantial volume the editor has assembled an international line up of scholars working on the city from the Renaissance to the present This is an important and timely work that has depth as well as breadth Interdisciplinary and cross-period collections like this which straddle several historical periods run the risk of appealing only in part to coherent scholarly communities but Dr Fitzpatrick has structured the collection in a way which plays to the strength of critics working within particular periods while clearly displaying the latticework of links between the book's strongly marked sections There is an excellent balance between historical and theoretical readings between textual and contextual approaches and between interventions that are author or text-based and those that deal with broader themes and issues The range of contributors is matched by the richness and variety of perspectives I would strongly recommend this book to students working in the early modern period and also to

those interested in modern developments It is a comprehensive intelligently organized and richly researched volume that is likely to be well received well reviewed and well read I will certainly be ordering copies for my own University library and including it on reading lists for future courses Professor Willy Maley University of Glasgow
