*Character and Moral Psychology* Christian B. Miller, 2014-01-09 Philosophers and psychologists have been hard at work trying to unlock the mysteries of our characters Unfortunately their answers have been all over the map According to one position every single person has all of the moral virtues such as modesty and compassion although to varying degrees Yet according to another position no one has any character traits at all since they are simply illusions and do not exist Hence not one person is honest or compassionate or courageous And between these extremes there are plenty of intermediate views Christian B Miller argues that not one of these leading positions accurately reflects what most of us are like today He explores the implications of the Mixed Trait framework a theory of moral character developed in his previous book *Moral Character An Empirical Theory* Mixed traits have both morally positive aspects hence they are not vices along with morally negative aspects hence they are not virtues Miller engages with the other leading positions on the empirical nature of character situationism the CAPS model the Big Five model and the local trait model He goes on to apply the Mixed Trait framework to several important topics in ethics especially the development of an error theory about judgments of character and the challenge faced by virtue ethics from the widespread lack of virtue

Loop,2016-08-05 Teacher Guide for Book 1 of the Principles of Mathematics Biblical Worldview Curriculum for junior high  
Math is a real life tool that points us to God and helps us explore His creation yet it often comes across as dry facts and  
meaningless rules Here at last is a curriculum that has a biblical worldview integrated throughout the text and problems not  
just added as an afterthought The resources in the Teacher Guide will help students master and apply the skills learned in  
the Student Textbook What does this Teacher Guide include Worksheets Quizzes and Tests These perforated three hole  
punched pages help provide practice on the principles taught in the main student textbook Answer Keys The answers are  
included for the worksheets quizzes and tests found in this Teacher Guide Schedule A suggested calendar schedule is  
provided for completing the material in one year though this can be adapted to meet individual student needs There is also  
an accelerated schedule for completing the material in one semester Are there any prerequisites for this course This  
curriculum is aimed at grades 6 8 fitting into most math approaches the year or two years prior to starting high school  
algebra If following traditional grade levels Book 1 should be completed in grade 6 or 7 and Book 2 in grade 7 or 8 In Book 1  
students should have a basic knowledge of arithmetic basic arithmetic will be reviewed but at a fast pace and while teaching  
problem solving skills and a biblical worldview of math and sufficient mental development to think through the concepts and  
examples given Typically anyone in sixth grade or higher should be prepared to begin The focus of the course is actually
