

Principles that Guide the Work of the Portage Project

Relationship Focused:

Learning occurs within the context of relationships. We pay attention to the relationships surrounding the child and family, and place primary importance on building relationships as a basis for our work. The path to our most effective work is through relationships, which sustain us both professionally and personally.

Ecological Thinking:

Considering and exploring the larger environmental context in which children, family, staff, and programs exist. Recognizing that a multiple of elements - including history, biology, culture, and relationship - influence what we see and hear as we engage in interactions.

Strengths Based:

Focusing on and building upon the strengths, or assets, of children, families, and staff to grow relationships and guide intervention.

Reflective:

Taking time to think individually and collectively about our work enhances the quality of what we do and how we feel. This reflective process influences our interactions and relationships.

Family Systems Centered:

Viewing families as equal partners. Families guide the work we do, and are the primary decision makers.

Portage Guide User Manual

AN Whitehead
