The pleasures of mystery novels and historical fiction double when the two genres meet in a single book. This detailed guide is the first to document and describe the diverse writings in the growing body of historical mystery literature. Its focus is on the best, most representative, most current, and easily accessible publications, with an emphasis on series novels. Most have been released in the past decade, with select classic historical mysteries, e.g., Christie's *Death Comes as the End*, 1945, also cited. Organized alphabetically by author name and series title, the guide covers the works of approximately 70 authors and contains descriptions of more than 700 works with crime themes, whether strictly in the mystery genre or a mainstream literary novel. For those who want to read historical mysteries in sequence, this is an essential guide, and for those seeking background information on historical mysteries to guide their reading or collection development choices, this book offers a level of detail that facilitates selection. Each series entry names the scene of the crime, identifies the detective and his or her chief associates, notes the series premise, comments on characteristics, features, and overall series quality, and discusses the critical response. Individual series titles. The Cases are then listed and described in series or chronological order. Additional access to titles is provided through detailed indexes: author, title, series, and individual characters and settings, time and place. Academic, public, and high school librarians will welcome this guide as a valuable reference, readers' advisory, and collection development tool.
