Physical and Medical Conditions Associated with Autism Martina Micai,Mila Vulchanova,Valentina Riva ,David Saldaña,2024-07-02

Some specific physical and medical conditions are well recognized to be more common in autistic individuals compared to the general population e g sleep wake disorders epilepsy sensory impairments However the prevalence and the impact on autistic individuals and their families of other physical and medical

conditions such as cardiovascular conditions cancer musculoskeletal conditions food intolerance allergies autoimmune problems diabetes and neurocutaneous disorders have yet to be established The presence of such co occurring conditions affects the success of treatment and worsens the quality of life of autistic individuals and their carers Importantly the awareness of the presence of specific physical and medical conditions associated with autism allows for targeted interventions and better outcomes Graduate Studies ,1990
