Teaching English in Africa Anderson, Jason, 2016-04-30 Teaching English in Africa is a practical guide written for primary and secondary school teachers working all over the continent This book relates the practice of English language teaching directly to the African context As well as covering the underlying theory of how children learn languages and how teachers can best facilitate this learning it also provides practical resources and ideas for activities and techniques that have proved successful in English classrooms in Africa both at primary and secondary level It is intended to be a practical guide so references and citations are kept to a minimum and concepts are presented using examples that are likely to be familiar to most teachers working in Africa If there is a bias in this book it is towards the needs of teachers working in low resource isolated contexts in Africa as these teachers are so often neglected by literature on teaching methodology

Four thematic threads are woven through the volume: educationalisation, globalisation, pluriculturalism and technologization. The chapters range over various aspects of L1 as a school subject, literature, language and literacy, reading and writing, media and digital technology, the dialogue between curriculum inquiry and Didaktik studies, the continuing relevance of Bildung, the significance of history and nation and new challenges of culture and environment in the face of climate change. The book concludes with a reflection on the prospects for L1 education today and tomorrow in a now thoroughly globalised context and accordingly deeply implicated in a necessary new project of nation re-building Revisiting EFL Assessment Rahma Al-Mahrooqi, Christine Coombe, Faisal Al-Maamari, Vijay Thakur, 2017-01-10 This book examines acknowledged practices and demonstrates to teachers how to make the most out of their assessment practices. The first half of the monograph deconstructs the most relevant approaches to modal categories and shows how the traditional concept of modality is a problematic notion, how it relates to other concepts such as evidentiality and mitigation, and how it ought to be conceived of in order to become a more useful instrument for linguistic analysis. A new way of understanding modality is explored and illustrated through Galician examples. The second half of the book zooms in on six epistemic adverbs which are exhaustively studied from both a formal and a functional perspective. Combining a quantitative and a qualitative perspective, the book shows that adverbs make up a rich semantic scale and establishes several factors that condition their occurrence in discourse, challenging previous conceptions of this grammatical domain **The Typology of Asian Englishes** Lisa Lim, Nikolas Gisborne, 2011-10-05 When considering the structure of New Englishes which have evolved in multilingual
