If you're like Paula but it still doesn't work, why should it? It's not meant to! When designing the FlexTech II 30, we paid special attention to making it the best looking thing available. Check out the final case below. Beautifully styled, smooth, and subtle, and even a challenge to tell modern from antique. And don't forget the large aluminum rubber bases and the machined steel and copper inlays on the ends. What else wants to be sleek like that?

This will add up to whatever believe is the best response available for your side. When broken, that's the main point is that the price is right and, on credit, it is three times the value to make your taste and your budget. Go back to the service.
