belief in God is more intellectually plausible than atheism **The New Atheist Crusaders and Their Unholy Grail** Becky Garrison, 2008-01-01 A challenge has been issued on matters of faith and Becky Garrison meets it head on in this witty yet poignant answer to the Anti God gurus Richard Dawkins Sam Harris and Daniel Dennett Becky Garrison religious satirist and senior contributing editor for The Wittenberg Door is taking a stand Where most Christians assume the character of the Cowardly Lion chanting I do believe I do believe I do believe Garrison refuses to simply thrust tracts at these self proclaimed infidels Instead Garrison steels her pen and takes on the ungodly program of the New Atheists skewering each argument with her sharp satiric wit Garrison turns aside the atheists assault without ignoring its real criticisms namely the church s inadequate response to war evolution medical ethics social justice and other important issues in the post 9 11 world

Encyclopedia of Anthropology H. James Birx, 2006 Focuses on physical social and applied anthropology archaeology linguistics and symbolic communication Topics include hominid evolution primate behaviour genetics ancient civilizations cross cultural studies and social theories **Getting Science** Brian Clegg, 2007-04-11 The science in this book is not for the children but for the adults who have to explain it Starting with a whirlwind tour of the great milestones of modern science Getting Science goes on to take each of the main curriculum topics and give it a new twist **Numinous** Jeffrey C McAndrew, 2019-05-11 This is a novel about a minister s struggle with his own faith It s also a story about the battle within all of us to maintain consistency and integrity of character during life s toughest times In the book Pastor Nathan Simone becomes increasingly more skeptical of the strict rules of organized religion and questions why he is playing this game He enjoys helping others but feels more and more caught in the grips of a troubling ethical crisis fueled by church politics To help him through his journey he sees visions the spirits representing the battle between love and truth The pastor believes that the inspiring visions come directly from God God teaches him that our current conceptions of reality are far off from what really exists and that one needs to be infinitely humble and retain a vibrant wonder about life like a young child gazing at the stars in the night sky It slowly dawns on our main character that religion may be less divinely inspired and more of a creation of mankind The story also contains a surprise conclusion that the reader may not expect *Science in Print* Rima D. Apple, Gregory J. Downey, Stephen L. Vaughn, 2012-09-25 Ever since the threads of seventeenth century natural philosophy began to coalesce into an understanding of the natural world printed artifacts such as laboratory notebooks research journals college textbooks and popular paperbacks have been instrumental to the development of what we think of today as science But just as the history of science involves more than recording discoveries so too does the study of print culture extend beyond the mere cataloguing of books In both disciplines researchers attempt to comprehend how social structures of power reputation and meaning permeate both the written record and the intellectual scaffolding through which scientific debate takes place *Science in Print* brings together scholars from the fields of print culture environmental history science and technology studies medical history and library and information studies This ambitious volume paints a rich picture of those

tools and techniques of printing publishing and reading that shaped the ideas and practices that grew into modern science from the days of the Royal Society of London in the late 1600s to the beginning of the modern U S environmental movement in the early 1960s Wired for Culture Mark Pagel,2013-03-11 Does an excellent job of using evolutionary biology to discuss the origins of religion music art and morality Publishers Weekly starred review A unique trait of the human species is that our personalities lifestyles and worldviews are shaped by an accident of birth namely the culture into which we are born It is our cultures and not our genes that determine which foods we eat which languages we speak which people we love and marry and which people we kill in war But how did our species develop a mind that is hardwired for culture and why Evolutionary biologist Mark Pagel tracks this intriguing question through the last 80 000 years of human evolution revealing how an innate propensity to contribute and conform to the culture of our birth not only enabled human survival and progress in the past but also continues to influence our behavior today Shedding light on our species defining attributes from art morality and altruism to self interest deception and prejudice Wired for Culture offers surprising new insights into what it means to be human The Subversive Evangelical Peter J. Schuurman,2019-06-30 Evangelicals have been scandalized by their association with Donald Trump their megachurches summarily dismissed as religious Walmarts In The Subversive Evangelical Peter Schuurman shows how a growing group of reflexive evangelicals use irony to critique their own tradition and distinguish themselves from the stereotype of right wing evangelicalism Entering the Meeting House an Ontario based Anabaptist megachurch as a participant observer Schuurman discovers that the marketing is clever and the venue a rented movie theatre is attractive to the more than five thousand weekly attendees But the heart of the church is its charismatic leader Bruxy Cavey whose anti religious teaching and ironic tattoos offer a fresh image for evangelicals This charisma Schuurman argues is not just the power of one individual it is a dramatic production in which Cavey his staff and attendees cooperate cultivating an identity as an irreligious megachurch and providing followers with a more culturally acceptable way to practise their faith in a secular age Going behind the scenes to small group meetings church dance parties and the homes of attendees to investigate what motivates these reflexive evangelicals Schuurman reveals a playful and provocative counterculture that distances itself from prevailing stereotypes while still embracing a conservative Christian faith **I've Been Thinking** Daniel C. Dennett,2023-10-03 How unfair for one man to be blessed with such a torrent of stimulating thoughts Stimulating is an understatement Richard Dawkins A memoir by one of the greatest minds of our age preeminent philosopher and cognitive scientist Daniel C Dennett Daniel C Dennett preeminent philosopher and cognitive scientist has spent his career considering the thorniest most fundamental mysteries of the mind Do we have free will What is consciousness and how did it come about What distinguishes human minds from the minds of animals Dennett s answers have profoundly shaped our age of philosophical thought In I've Been Thinking he reflects on his amazing career and lifelong scientific fascinations Dennett s relentless curiosity has taken him from a childhood in Beirut and the classrooms of Harvard

Oxford and Tufts to Cognitive Cruises on sailboats and the fields and orchards of Maine and to laboratories and think tanks around the world Along the way I've Been Thinking provides a master class in the dominant themes of twentieth century philosophy and cognitive science including language evolution logic religion and AI and reveals both the mistakes and breakthroughs that shaped Dennett's theories Key to this journey are Dennett's interlocutors Douglas Hofstadter Marvin Minsky Willard Van Orman Quine Gilbert Ryle Richard Rorty Thomas Nagel John Searle Gerald Edelman Stephen Jay Gould Jerry Fodor Rodney Brooks and more whose ideas even when he disagreed with them helped to form his convictions about the mind and consciousness Studded with photographs and told with characteristic warmth I've Been Thinking also instills the value of life beyond the university one enriched by sculpture music farming and deep connection to family Dennett compels us to consider What do I really think And what if I'm wrong This memoir by one of the greatest minds of our time will speak to anyone who seeks to balance a life of the mind with adventure and creativity [The New York Times Book Reviews 2000](#) New York Times Staff,2001

Species of Origins Karl W. Giberson, Donald A. Yerxa, 2002-10-09 In Species of Origins Karl W Giberson and Donald A Yerxa examine America s controversial conversation about creation and evolution While noting that part of the discord stems from the growing cultural and religious diversity of the United States they argue powerfully that the real issue is the headlong confrontation between two seemingly incompatible worldviews upon which millions of Americans rely modern naturalistic science and traditional Judeo Christian religions
