Women s Work Men s Work Betty Wood examines the struggle of bondpeople to secure and retain for themselves recognized rights as producers and consumers in the context of the brutal formal slave economy sanctified by law Wood examines this struggle in the Georgia lowcountry over a period of eighty years from the 1750s to the 1830s when she argues the evolution of the system of informal slave economies had reached the point that it would henceforth dominate Savannah s political agenda until the Civil War and emancipation The daily battles of bondpeople to secure rights as producers and consumers reflected and reinforced the integrity of the private lives they were determined to fashion for themselves Wood posits Their families formed the essential base upon which and for which they organized their informal economies An expanding market in Savannah provided opportunities for them to negotiate terms for the sale of their labor and produce and for them to purchase the goods and services they sought In considering the quasi autonomous economic activities of bondpeople Wood outlines the equally significant but quite different roles of bondwomen and bondmen in organizing these economies She also analyzes the influence of evangelical Protestant Christianity on bondpeople and the effects of the fusion of religious and economic morality on their circumstances For a combination of practical and religious reasons Wood finds informal slave economies with their impact on whites became the single most important issue in Savannah politics She contends that by the 1820s bondpeople were instrumental in defining the political agenda of a divided city a significant if unintentional achievement
