Multidimensional Healing Carrie Cameron,2007-05-03 My undergraduate training has been in the field of Physical Therapy but like many of you I have been participating in the school of life much longer As you incorporate the basic techniques included in this book into whatever your current healing practice is hopefully you too will experience the reward and joy of watching people change and heal themselves as I have Following are the basic principles that have emerged for me through the years Our bodies are all one piece and what affects any part of it affects the whole All layers of the body must be released to allow for full release of the whole body As parts of the body release and physical mobility changes mental and emotional agility increases To maintain these changes the central nervous system has to realize the new possibilities for movement and incorporate them into natural motor patterns To maintain the physical changes and new natural motor patterns the energetic body must change to reflect the physical changes As parts of the body release energy releases and flows more freely throughout the entire body As energy releases memories emerge for integration into consciousness and subsequent healing of past traumas As physical and energetic changes occur belief systems shift As individuals belief systems shift societal paradigms shift This is a wholistic model that I am calling MultiDimensional Healing Come join me on this exciting journey of discovering your unlimited potential for facilitating healing for yourself your clients your community the world Respectfully submitted Carrie Cameron
