Shanghai Past And Present A Concise Socio Economic History 1842 Ndash 201:

Shanghai, Past and Present Niv Horesh, 2014-03-01 This book sets out to explain how Shanghai emerged from relative obscurity in 1842 to become one of the world's best known finance and industry hubs. As China's largest city, Shanghai today plays a central economic role much as it did in the 1920s. The author provides a concise diachronic survey of the economic history of modern Shanghai, setting out how the city's urban infrastructure, municipal institutions, consumer culture, and industry have shaped and have been shaped by this economic power house. The work is aimed at a broad readership of all who are interested in Asian history and tackles a range of themes including the city's millionaires then and now, racial tensions and quotidian liaisons between Europeans and Asians before World War II and the gambling and prostitution industry. The post-war era is portrayed in comparative discussions on Shanghai under Mao Zedong and during the reform era. These discussions bring the narrative up to date to cover important events such as the designation of the Pudong precinct as the city's new engine of growth in 1991. The city's illustrious pre-war past is compared with its present ambitions to become Asia's leading financial centre. The book employs insights from studies, frameworks of new institutional economics as well as from the development trajectory of other world cities by way of better understanding Shanghai's historic distinctness, its relative weaknesses and contemporary strengths. *Shanghai, Past and Present* Niv Horesh, *Some Pages in the History of Shanghai, 1842-1856* William Richard Carles, 1983 ***Some Pages in the History of Shanghai, 1842-1856*** William Richard Carles, 2016-08-26 Excerpt from *Some Pages in the History of Shanghai 1842-1856* A Paper Read Before the China Society on May 23 1916 Thirty odd years ago life at Shanghai was perhaps not so strenuous as it has since become and the British Vice Consulate was not so busy but that there were half hours in which other work than that of the day could be taken in hand. As much of the ordinary work related to the tenure of land within the Settlement, this subject naturally excited my interest especially owing to the existence of two counter forces of which the one impelled natives to acquire land within the Settlement intended for foreigners while the other drove foreigners to live outside their own Settlement. In the one case the cause was the desire to secure the immunities and advantages which were to be obtained by living in territory controlled and policed by foreigners. In the other the motive was to get away from the bustle and stir of the busy port and to enjoy a country life outside of Office hours. In both cases there was added the excitement of the knowledge that the purchase of property was an extremely good speculation and that the tendency was towards a constant advancement of values in spite of occasional waves of depression.
