# Shared Limpopo 2014 Memo

**Marco Cascella**

## Shared Limpopo 2014 Memo:

**Mozambique's foreign policy towards South Africa** Paulo Mateus Wache, 2022-01-01 This Book discusses the Mozambique's foreign policy framework in general and towards South Africa in particular searching to understand why it has been characterized by the hostility friendship dichotomy The Book argues that asymmetry alone cannot explain the occurrence of the dichotomy as suggested by Womack's asymmetry theory In the case of Mozambique's foreign policy the dichotomy is caused by combination of factors namely power asymmetry ideological differences leadership perceptions economic disagreements and economic ties However it is highlighted that power asymmetry is the main factor of the dichotomy This complexity and amalgamations of causes of the dichotomy makes it a permanent and distinctive feature of Mozambique's foreign policy towards South Africa Thus the major contribution of this book is twofold First it presents a detailed and comprehensive analysis of Mozambique's foreign affairs as they have interacted with South Africa Second by applying asymmetry theory to Mozambique the study makes a significant theoretical contribution to understanding the agency of the smaller side in bilateral asymmetric relationships *Mud to bricks: A review of school infrastructure spending and delivery* Carmen Abdoll, Conrad Barberton, 2014-07-04 The Centre for Child Law commissioned this study by Cornerstone Economic Research to track school infrastructure spending and delivery The report written by Carmen Abdoll and Conrad Barberton makes the concerning finding that the national Department of Basic Education has woefully underspent the School Infrastructure Backlog grant for two years running In 2011 2012 spending was a little over 10 per cent and only at 23 per cent in 2012 2013 at the end of the third quarter The ASIDI target for the number of schools to be built in 2011 2012 and 2012 2013 was 49 However only 10 had been completed by the end of the first year They predict that if the DBE continues at the same delivery rate a realistic timeframe for the eradication of schools with inappropriate structures is probably 2023 24 They make recommendations which if followed could shorten the delay significantly This study shows the importance of monitoring and evaluating progress against court orders and out of court settlements to ensure that the right to a basic education is made real *Institutional Arrangements for Conservation, Development and Tourism in Eastern and Southern Africa* René van der Duim, Machiel Lamers, Jakomijn van Wijk, 2014-11-16 This book presents an overview of different institutional arrangements for tourism biodiversity conservation and rural poverty reduction in eastern and southern Africa These approaches range from conservancies in Namibia community based organizations in Botswana conservation enterprises in Kenya private game reserves in South Africa to sport hunting in Uganda and transfrontier conservation areas The book presents a comparative analysis of these arrangements and highlights that most arrangements emerged in the 1990s through either a decentralized or centralized change trajectory that was sponsored by donors They aim to address some of the challenges of the fortress types of conservation by combining principles of community based natural resource management with a neoliberal approach to conservation evident in the use of tourism as the main mechanism for accruing

benefits from wildlife The book illustrates the empirical relevance of these novel arrangements by presenting their growth in numbers and discuss how these arrangements differ in their form With respect to the conservation and development impacts of these arrangements we show that they have secured large amounts of land for conservation but also generated governance challenges and disputes on tourism benefit sharing affecting the stability of these arrangements to generate socioeconomic and conservation benefits      *Finding Common Ground* Wandile Sihlobo,2020-04-01 My hope is that people can grow to appreciate this sector its challenges and opportunities but most importantly the role agriculture can play in improving South Africa s rural economy creating jobs and bringing about much needed transformation or inclusive growth Wandile Sihlobo is perfectly positioned to provide a well rounded accessible view of agriculture in South Africa He spent his school holidays in the rural Eastern Cape studied agricultural economics at university has worked in private sector agriculture consulting with farmers across the country and has been an adviser to government as part of South African policymaking bodies *Finding Common Ground* is a selection of key articles from Sihlobo s regular Business Day column framed with insightful commentary and context The book covers the broad themes that have marked current discussions and outlines the challenges and opportunities faced by South Africa s agricultural sector including The contentious and complex issue of land reform The potential for new leadership to revive the sector How agriculture can drive development and job creation Cannabis as an exportable commodity The urgent need for agricultural policy to address gender equity and youth involvement Technological developments and megatrends that are underpinning agricultural development The importance of trade in growing South Africa s agriculture and Key lessons that South Africa and other African countries can learn from one another Ultimately Sihlobo is optimistic about the future of South Africa s agricultural sector and shows us all from policymakers to the general public how much common ground we truly have      *AIM Reports* ,2014
