Table 10 of the *Code of Federal Regulations* (48 CFR) part 25 requires other compliance with the operating institution, specified as approved educational flight schools, as follows, and elsewhere. Originally, flight schools were only those approved by a body of national authorities and followed a common format and content for certification of student pilots. This changed with the acceptance of the General Aviation Manufacturers Association (GAMA) specification for a Pilot's Operating Handbook, which established a standardized format for all general aviation aircraft and universally flight schools. The term Pilot's Operating Handbook (POH) is often used in place of *Flight Manual* (see Table 10).
