The Agricultural Law of the EU René Barents, 2022-05-13 European Monographs Series Volume 9 This second and much revised edition of the pre eminent work on European Union EU agricultural law emphasises the sweeping changes that have led to the gradual expansion of the common agricultural policy to encompass the food chain as a whole Although the new edition s purpose and methodology remain the same the author presents a completely new overview of the field as it now exists including the effects of the latest reform measures up to 2021 and their implications for the future Imparting in depth awareness of the multifunctional character of agriculture today its importance for environmental protection preservation of biodiversity public health mitigation of climate change and rural development as well as its international obligations the book provides matchless insight and clarifications on such critical legal details as the following analysis of the Green Deal the Farm to Fork Strategy and the Biodiversity Strategy for 2030 extensive treatment of the TFEU provisions on agriculture and the impact of international legal instruments clear and easily accessible treatment of the legislation on market and price policy competition and the agri food chain thorough analysis of administrative law aspects in particular the rights and obligations of operators in the framework of numerous subsidy arrangements and related topics such as sanctions and force majeure and in depth treatment of the importance of the general principles of EU law for legal protection Given that about one third of the EU s budget is spent on agriculture and that European legislation on agriculture is voluminous and complicated and case law is abundant this well organised and lucid exposition will be of immeasurable value to any practitioner asked to deal with a case involving agriculture anywhere in the EU Academics aware of the growing intricacy of the field will welcome the author s reflections on the meaning and significance of EU agricultural law **Examens**

Politiques agricoles : Suivi et évaluation 2024 (version abrégée) L'innovation au service de la croissance durable de la productivité OECD, 2024-11-06 Ce rapport annuel de suivi et d'évaluation porte sur les politiques agricoles de 54 pays, les 38 pays de l'OCDE, les 5 États membres de l'UE non membres de l'OCDE et 11 économies émergentes. Il montre qu'en dépit de certaines baisses modestes observées, le soutien à l'agriculture est resté proche des niveaux record atteints il y a peu. Si le soutien n'a pas beaucoup changé, les politiques agricoles ont pris un caractère plus actif et proactif en ce qu'elles rendent le secteur mieux équipé de relever les défis actuels et ambitionnent parallèlement de garantir que les systèmes alimentaires sauront s'adapter à l'évolution de la conjoncture. Le rapport de cette année est centré sur les politiques qui favorisent la croissance durable de la productivité en agriculture. Les pouvoirs publics appliquent de nombreuses approches différentes pour faire progresser la productivité tout en préservant les ressources naturelles et en réduisant les émissions de gaz à effet de serre d'origine agricole. Cependant, comme le relève le rapport, il importe qu'ils définissent des objectifs clairs en matière de croissance durable de la productivité et des indicateurs des progrès mesurables pour s'assurer que les politiques atteignent les objectifs qu'ils leur assignent. En outre, un usage plus efficace du soutien aux producteurs afin de promouvoir l'innovation et la durabilité environnementale au niveau des exploitations et un recentrage du soutien global sur la R-D ciblée permettraient de mieux mettre profit les dépenses publiques pour produire des biens publics et assurer une croissance durable de la productivité. Dans la lignée de la Déclaration publiée par les ministres de l'Agriculture réunis à l'OCDE en 2022, le rapport décrit un programme en sept points pour rendre l'agriculture plus durable, plus productive et plus résiliente, ainsi que pour rendre le soutien et les marchés agricoles plus efficaces et efficaces.
