reprints the contents of the New York Times Sunday edition Household Column which apparently was extremely popular in its day and the public clamored for reprints of the column's recipes. Besides the hundreds of formulas for cooking breakfast dishes, eggs, fish, oysters, soups, meats, vegetables, pastry, cakes, breads, and more, the book includes considerable supplementary matter such as a complete treatise on carving illustrated with woodcuts. Providing advice on everything from food marketing and storage to setting tables and serving wine, the Times asserts that every counsel is the outgrowth of experiment and success and the suggestions offered can be acted upon with certainty that good results will follow. This edition of The Times Recipes was reproduced by permission from the volume in the collection of the American Antiquarian Society, Worcester, Massachusetts. Founded in 1812 by Isaiah Thomas, a Revolutionary War patriot and successful printer and publisher, the Society is a research library documenting the life of Americans from the colonial era through 1876. The Society collects, preserves, and makes available as complete a record as possible of the printed materials from the early American experience. The cookbook collection includes approximately 1,100 volumes.

McCall's Introduction to British Cooking Linda Wolfe, 1972 **The Eagle Cook Book and Household Manual**, 1915 **The Oxford Companion to Food** Alan Davidson, 2014

the best food reference work ever to appear in the English language. Read it and be dazzled. Bee Wilson, *New Statesman*. First published in 1999, the ground-breaking Oxford Companion to Food was an immediate success and won prizes and accolades around the world. Its blend of serious food history, culinary expertise, and entertaining serendipity was and remains unique. Interest in food cooking and the culture surrounding food has grown enormously in the intervening period, as has the study of food and food history. University departments, international societies, and academic journals have sprung up dedicated to exploring the meaning of food in the daily lives of people around the world, alongside an ever-increasing number of articles, books, programmes, and websites in the general media devoted to the discussion of food, making the Oxford Companion to Food more relevant than ever. Already a food writing classic, this Companion combines an exhaustive catalogue of foods, be they biscuits named after battles, divas, or revolutionaries; body parts from nose to tail, toe to cerebellum; or breads from the steppes of Asia or the well-built ovens of the Mediterranean, with a richly allusive commentary on the culture of food expressed in literature and cookery books, or as dishes peculiar to a country or community. While building on the Companion's existing strengths, Tom Jaine has taken the opportunity to update the text and alert readers to new perspectives in food studies. There is new coverage of attitudes to food consumption, production, and perception, such as food and genetics, food and sociology, and obesity. New entries include terms such as convenience foods, drugs, and food. Ethiopia, leftovers, medicine, and food, pasta, and many more. There are also new entries on important personalities who are of special significance within the world of food, among them Clarence Birdseye, Henri Nestlé, and Louis Pasteur. In its new edition, the Companion maintains its place as the foremost food reference resource for study and home use.
