Recipe For Non Cook Playdough:

Teaching and Learning Online Franklin S. Allaire, Jennifer E. Killham, 2022-04-01 Science is unique among the disciplines since it is inherently hands on. However, the hands on nature of science instruction also makes it uniquely challenging when teaching in virtual environments. How do we as science teachers deliver high quality experiences in an online environment that leads to age grade level appropriate science content knowledge and literacy but also collaborative experiences in the inquiry process and the nature of science? The expansion of online environments for education poses logistical and pedagogical challenges for early childhood and elementary science teachers and early learners. Despite digital media becoming more available and ubiquitous and increases in online spaces for teaching and learning (Killham et al 2014, Wong et al 2018), PreK-12 teachers consistently report feeling underprepared or overwhelmed by online learning environments (Molnar et al 2021, Seaman et al 2018). This is coupled with persistent challenges related to elementary teachers' lack of confidence and low science teaching self-efficacy (Brigido, Borrachero, Bermejo, Gunning, Duran, Duran 2004). Ideal for undergraduate teacher candidates, graduate students, teacher educators, classroom teachers, parents, and administrators, this book addresses why and how teachers use online environments to teach science content and work with elementary students through a research-based foundation.

ArtBreak Katherine Ziff, 2016-07-15 Play is the central, universally significant activity of childhood. Self-directed play in which adults have a supporting rather than directing role is critical to the development and well-being of children. Yet as children have their days and nights increasingly scripted and planned for them, opportunities for play have disappeared over the last half century, especially in schools. *ArtBreak's* innovation lies in its creative framework. Former school counselor, current professor of counseling and practicing artist, Katherine Ziff developed and tested the program over five years, integrating theory and practice from art therapy, counseling, and child-centered education. The result is a choice-based, guided play experience based on the developmental and restorative possibilities of art making. A detailed how-to guide, this book is the flexible and

accessible toolbox that teachers parents and counselors need to facilitate relaxing art based play that allows children to freely explore plan and pursue their own interests with adult support Easy to implement ArtBreak can be added to the regular routines of classroom home therapy office or other community setting at whatever scale suits space time and budget No art training is required only a willingness to embark on a play journey with children The Complete Book of Activities, Games, Stories, Props, Recipes, and Dances for Young Children Pamela Byrne Schiller, Jackie Silberg, 2003 Instant access to over 500 favorite activities games stories and more **Preschool Art** MaryAnn F.
