Across Media Leticia Bode,Emily K. Vraga,2020-06-29 This book highlights the diverse methods needed to study a complex media environment and the nuance and richness of the understanding gained by doing so by offering examples of political communication research considering multiple platforms simultaneously Political communication research that considers multiple media platforms is difficult and expensive to perform and therefore relatively rare Yet studying media platforms in isolation ignores the realities of the varied and complicated contemporary media experience where most individuals consume information from multiple media outlets Media platforms from traditional outlets such as newspapers and television to newer online platforms such as social media have proliferated in recent years This makes the media environment itself more complex as classic understandings of how the media function give way to a growing recognition of the hybrid media system where divisions between content and producers are opaque and where information is gleaned from increasingly diverse and numerous sources Studying political communication across platforms allows better understanding of which types of experiences and effects are universal and which are specific to particular platforms This book was originally published as a special issue of Political Communication

Secession and Conflict Zheger Hassan,2023-02-15 The overthrow of Saddam Hussein in 2003 in Iraq opened the door for Kurdish nationalists to move toward outright independence Despite the recent visibility of the Kurds in the international media little is known about their political aspirations as citizens of an autonomous region In Secession and Conflict Zheger Hassan employs a comparative analysis to explore why Iraqi Kurdistan despite being better positioned institutionally and economically than the similar cases of South Sudan and Kosovo has not declared independence In rebuilding Iraq and fighting against the Islamic State the Kurds have cultivated important political alliances with the US and Europe which have garnered them international economic military and political support Though now well positioned to function as an independent state Iraqi Kurdistan has vacillated in seizing this golden opportunity to declare independence The apparent Kurdish willingness to forgo independence runs counter to the prevailing narratives about the Kurds in the Middle East Hassan draws not only on the history of the Kurds but also on first hand interviews with high ranking officials journalists and nationalists to provide a new window into the calculations of Kurdish leaders as they navigate the complicated politics of Iraq Secession and Conflict offers a new model for understanding the Kurdish question in Iraq

A Century of Compulsory Voting in Australia Matteo Bonotti,Paul Strangio,2021-03-13 Compulsory voting has operated in Australia for a century and remains the best known and arguably the most successful example of the practice globally By probing that experience from several disciplinary perspectives this book offers a fresh up to date insight into the development and distinctive functioning of compulsory voting

in Australia By juxtaposing the Australian experience with that of other representative democracies in Europe and North America the volume also offers a much needed comparative dimension to compulsory voting in Australia A unifying theme running through this study is the relationship between compulsory voting and democratic well being Can we learn anything from Australia s experience of the practice that is instructive for the development of institutional bulwarks in an era when democratic politics is under pressure globally Or is Australia s case sui generis best understood in the final analysis as an intriguing outlier
