Financial Institutions in Distress Ronald Davis, Stephan Madaus, Monica Marcucci, Irit Mevorach, Riz Mokal, Barbara Romaine, Janis Sarra, Ignacio Tirado, 2023-08-10 Political boundaries are often porous to finance financial intermediation and financial distress Yet they are highly impervious to financial regulation When inhabitants of a country suffering a deficit of purchasing power are able to access and deploy funds flowing in from a country with a surfeit of such power the inhabitants of both countries may benefit They may also benefit when institutions undertaking such cross border financial intermediation experience economies of scale and are able to innovate and to offer funds and services at lower costs Inevitably however at least some such institutions will sometimes

act imprudently some of the projects in which such funds are deployed may be unwise and other such projects can suffer from unforeseen circumstances As a result of such factors a financial institution may suffer distress in one country and may then transmit such distress to other countries in which it operates The efficacy of any response to such cross border transmission of distress may turn on the response being given due effect in both or all the territories in which the distressed financial institution operates This situation creates a conundrum for policymakers legislators and regulators who wish to enable those subject to their jurisdiction to access the benefits of cross border financial intermediation yet cannot make rules and regulations that would have effect outside that jurisdiction This book explores this conundrum and offers a response It does so by drawing on and adding to the literatures on financial intermediation regulation and distress and on existing hard and soft laws and regulations The book advocates for the creation of a model law that would address the full range of financial institutions including insurance companies and that would enable relevant authorities to cooperate with counterparts in advance of the onset of distress and to give appropriate effect in their jurisdiction to measures taken by counterpart authorities in other jurisdictions in which the distressed institution also operates *Moving the AEC Beyond 2015* Tham Siew Yean, 2018-02-14 The ten Southeast Asian economies reached a milestone on 31 December 2015 when they announced the formation of an ASEAN Community Although this includes three pillars ASEAN Political Security Community ASEAN Economic Community AEC and the ASEAN Socio Cultural Community it is the economic pillar that generates immense debate due to its expected quantifiable benefits to member countries This book thus focuses on the ASEAN Economic Community and seeks to explain the need for building domestic consensus within the member countries It starts with an overview chapter describing the current achievements of the AEC It then explores possible explanations for the achievements non achievements and offers a hypothesis on conflicting economic interests in a country as one possible explanation for gaps in implementation This is because any form of economic liberalisation brings with it the winners and losers thereby raising resistance to liberalization measures and slowing down the implementation process The book includes six country chapters Indonesia Malaysia the Philippines Singapore Thailand and Vietnam that examine sources of domestic conflict s in greater detail and depth It also includes a regional chapter co authored by the ex Secretary General of ASEAN Mr Rodolfo Severino that brings out the political nature of ASEAN economic cooperation since its inception in 1976 For ASEAN beyond 2015 the book articulates the need to obtain a strong domestic consensus that supports the integration initiatives of the AEC This can be viewed as a way forward to accelerate and deepen integration within ASEAN The book concludes with some suggestions on how each country can move towards achieving domestic consensus based on the respective country level analysis *International Human Rights Law and Practice* Ilias Bantekas, Lutz Oette, 2016-09-29 The second edition of this innovative textbook explores human rights law through an engaging combination of theory and practice *In Foreign Lands: The Migration of Scientists for Political or Economic Reasons* Maria Teresa Borgato, Christine

Phili,2022-04-13 This proceedings volume collects the stories of mathematicians and scientists who have spent and developed parts of their careers and life in countries other than those of their origin The reasons may have been different in different periods but were often driven by political or economic circumstances The lack of suitable employment opportunities in their home countries adverse political systems and wars have led to the emigration of scientists The volume shows that these movements have played an important role in spreading scientific knowledge and have often changed the scientific landscape tradition and future of studies and research fields The book analyses in particular aspects of Euler s Lagrange s and Boscovich s scientific biographies migrations of scientists from France Spain and Greece to Russia in the eighteenth and nineteenth centuries and from Russia to France in the twentieth century exiles from Italy before the Italian Risorgimento migrations inside Europe and the escape of mathematicians from Nazi fascist Europe between the two World Wars as well as the mobility of experts around the world It includes selected contributions from the symposium In Foreign Lands The Migration of Scientists for Political or Economic Reasons held at the Conference of the International Academy of the History of Science in Athens September 2019 Annual Report of the Commissioner of Patents United States.
