Helming,2013-02-21      *Competing Values in Archaeological Heritage* Stuart Campbell,Liz White,Suzie Thomas,2018-09-22  
Archaeological heritage legislation aims to ensure the best possible protection for the archaeological heritage yet it remains the case that legislation can remain ineffective through other practical considerations Some consideration may be legal or procedural such as difficulties in enforcing legislation or in preventing crimes or damage or archaeological monuments However other problems may be less obvious and harder to address and require solutions which go much further than the simple application of the law The aim of this volume is to address several issues surrounding the management of archaeological heritage comparing and contrasting which laws work and which ones do not and ignoring other issues which might effectively present the transplantation of an ideal system to another country or political climate Or the cultural attitudes which might prevent a law working in the legal system for which it was designed The contributions are from various international jurisdictions and address a variety of subjects from the protection of archaeological monuments to dealing with and controlling chance finds made by members of the public      Mergent OTC Unlisted Manual ,2009      **Promoting Successful Integration** Rory A. From Aphrodite to Baubo to Cassandra and Beyond.* Morris Silver,2020-01-01 This book does not intend to demonstrate that Greeks and other ancient Mediterranean peoples men and women married and

unmarried sought and participated in sex for its own sake That is it is taken as obvious a given that they were able to separate sex for pleasure from sex for reproduction There never were human beings who concerned themselves only with fertility Neither does this study seek to demonstrate that some ancient Greeks were willing to provide sexual services to partners in return for the receipt of nonsexual benefits Again this is self evident Nor does this study intend to show that the ancient Mediterranean world was familiar with individuals and enterprises that regularly earned incomes by selling sexual services Clearly the ancient world knew prostitution as an occupation and as a form of enterprise In an article published by Ugarit Forschungen in 2008 Silver 2006a challenged the view that temple sacred prostitution did not exist in the ancient Near East Contrary to such scholars as Julia Assante 1998 2003 Martha T Roth 2006 and Vinciane Pirenne Delforge 2010 ample evidence indicates that it did For the convenience of readers this article is included as a Supplement to the present volume The original article has been reformatted to correct some typographical errors and to make it blend seamlessly into the present volume but otherwise it is unchanged More recent materials from the ancient Near East are considered mostly in footnotes however The present study seeks to leap beyond this finding by showing that temple prostitution also flourished in the ancient Mediterranean That it did is of course an old view but the old supporting arguments often lack rigor and even clarity and the supporting evidence is fragmentary contradictory and often facially absurd e g Herodotus 1 199 1 5 Work of this kind has been discredited by scholars such as Fay Glinister 2000 and Stephanie Lynn Budin 2008

**Reconstructing a Maritime Past** Matthew Harpster, 2022-12-30 Reconstructing a Maritime Past argues that rather than applying geo ethnic labels to shipwrecks to describe Greek or Roman seafaring a more intriguing alternative emphasizes a maritime culture's valorization of the Mediterranean Sea Doing so creates new questions and research agendas to understand the past human relationship with the sea This study makes this argument in three sections Chapters 1 and 2 contrasting intellectual histories of maritime archaeological interpretive approaches common in Northern Europe and the Mediterranean propose that the former perspective which embodies contemporary and fluid perceptions of culture is a better theoretical framework for future research Chapters 3-5 re-interpret the corpus of submerged sites in the Mediterranean Sea with this approach arguing that this dataset does not represent Phoenician Muslim or Byzantine seafaring but the practices of a maritime culture Key to this section is the author's method that utilizes superimposed polygons to model patterns of maritime activity generating centennial results at different scales Having built the models of a maritime culture's valorization of the Mediterranean Sea Chapter 6 contains the first comparisons of these models to other datasets questioning the relevance of textual media to understand maritime activity while finding closer analogues with other archaeological corpora By deconstructing interpretive methods in maritime archaeology offering a new synthesizing interpretive approach that is scalable and decoupled from past perceptions and critically examining the applicability of various media to illuminate the past maritime experience this book will appeal to scholars at various stages of their careers

*Localism and the Ancient Greek City-State* Hans Beck, 2020-07-31 A Greek historian investigates the importance of local identity in the Mediterranean world in a rare genuinely original book Highly recommended Choice Much as our modern world is interconnected through global networks the ancient Greek city states were a dynamic part of the wider Mediterranean landscape In *Localism and the Ancient Greek World* historian Hans Beck argues that local shifts in politics religion and culture had a pervasive influence in a world of fast paced change Citizens in these communities were deeply concerned with maintaining local identity commercial freedom distinct religious cults and much more Beyond these cultural identifiers there lay a deeper concept of the local that guided polis societies in their contact with a rapidly expanding world Drawing on a staggering range of materials including texts by both known and obscure writers numismatics pottery analysis and archeological records Beck develops fine grained case studies that illustrate the significance of the local experience *Localism and the Ancient Greek City State* builds bridges across disciplines and ideas within the humanities It highlights the importance of localism not only in the archaeology of the ancient Mediterranean but also in today's conversations about globalism networks and migration

**The Origins of the Law in Homer** Shulamit Almog, 2022-03-07 The book aims to

introduce the Homeric oeuvre into the law and literature canon It argues for a reading of Homer's *The Iliad* and *The Odyssey* as primordial narratives on the significance of the rule of law The book delineates moments of correspondence between the transition from myth to tragedy and the gradual transition from a social existence lacking formal law to an institutionalized legal system as practiced in the polis It suggests the Homeric epics are a significant milestone in the way justice and injustice were conceptualized and testify to a growing awareness in Homer's time that mechanisms that protect both individuals and the collective from acts of unbridled rage are necessary for the continued existence of communities The book fills a considerable gap in research on ancient Greek drama as well as in discourses about the intersections of law and literature and by doing so offers new insights into two of the foundational texts of Western culture
