**The Marvels of the World** Rebecca Bushnell,2021-03-12 Long before the Romantics embraced nature people in the West saw the human and nonhuman worlds as both intimately interdependent and violently antagonistic With its peerless selection of ninety eight original sources concerned with the natural world and humankind s place within it The Marvels of the World offers a corrective to the still prevalent tendency to dismiss premodern attitudes toward nature as simple or univocal Gathering together medical texts herbals and how to books as well as scientific religious philosophical and poetic works dating from antiquity to the dawn of the Enlightenment the anthology explores both mainstream and unconventional thinking about the natural world Its seven parts focus on philosophy and science plants animals weather and climate ways of inhabiting the land gardens and gardening and European encounters with the wider world Each section and each of the book s selections is prefaced with a helpful introduction by volume editor Rebecca Bushnell that weaves connections among these compelling pieces of the past The early writers collected here wrote with extraordinary openness about ways of coexisting with the nonhuman forces that shaped them Bushnell demonstrates even as they sought to control and exploit their environment Taken as a whole The Marvels of the World reveals how many of these early writers cared as much about the natural world as we do today

**Speech and Silence in Contemporary Children's Literature** Danielle E. Price,2023-10-31 Speech and Silence in Contemporary Children s Literature brings a fresh perspective to a central literary question Who speaks by examining a variety of represented silences These include children who do not speak do not yet speak effectively or speak on behalf of others A rich and unexamined literary archive explores the problematics of children who are literally silent or metaphorically so because they cannot communicate effectively with adults or peers This project centers children s literature in the question of voice by considering disability gender race and ecocriticism Children s literature rests on a paradox at the root of its own genre it is produced by an adult author writing to a constructed idea of what children should be By reading a range of contemporary children s literature this book scrutinizes how such texts narrate the child s journey from communicative alterity to a place of empowered adult speech Sometimes the child s verbal enclosure enables privacy and resistance At other times silence is coerced or imposed or arises from bodily impairment Children may act as intermediaries speaking on behalf of species that cannot Recently we have seen children exercise their voices on the world stage and as authors In all cases the texts analyzed here reveal speech as a minefield to be traversed Children who talk too much too little or with insufficient expertise pose problems to themselves and others Implicitly and sometimes explicitly they attempt to hold adults to account inside and outside the text Speech and Silence in Contemporary Children s Literature addresses this underconceptualized subject in what will be an important text for scholars of children s literature childhood studies English disability studies

Andrew Michael Ramsay, 1749      **The Latter Day Luminary** , 1821      Matter and Making in Early English Poetry Taylor Cowdery, 2023-06-29

What is literature made from During the fourteenth fifteenth and sixteenth centuries this question preoccupied the English court poets who often claimed that their poems were not original creations but adaptations of pre existing materials Their word for these materials was matter while the term they used to describe their labor was making or the act of reworking this matter into a new but not entirely new form By tracing these ideas through the work of six major early poets this book offers a revisionist literary history of late medieval and early modern court poetry It reconstructs premodern theories of making and contrasts them with more modern theories of literary labor such as authorship It studies the textual historical and philosophical sources that the court tradition used for its matter Most of all it demonstrates that the early English court poets drew attention to their source materials as a literary tactic one that stressed the process by which a poem had been made
