Greenberg, 1971 First published in 1971 this book offers an exploration of the insurrection as part of the nationwide struggle for municipal and departmental liberties bringing to the fore the Commune s relationship to the broader historical problem of the consolidation and future character of the Third Republic especially in the provinces Making Modern Paris Christopher Curtis Mead, 2012 Investigates how architecture technology politics and urban planning came together in French architect Victor Baltard s creation of the Central Markets of Paris Presents a case study of the historical process that produced modern Paris between 1840 and 1870 Natural Interests Caroline Ford, 2016-03-28 Challenging the conventional trope that French environmentalism arose after WWII Caroline Ford argues that a broad environmental consciousness emerged in France much earlier In response to war natural disasters and imperialism the bourgeoisie along with politicians engineers naturalists writers and painters took up environmental causes Population Studies and Development from Theory to Fieldwork Véronique Petit, 2017-10-30 This book addresses major population and development issues fertility and reproductive health migrations gender education poverty and inequalities To that aim it revisits and considerably enlarges Kingsley Davis 1963 theory of change and response using interdisciplinary methodologies On the basis of four decades of field research 1985 2015 it questions the rationality of the actors how culture shapes socio demographic behaviours in a context of modernity and globalisation More specifically it casts new light on the
