Subject Catalog, 1977 Library of Congress, 1977      **International Development and Local Faith Actors** Kathryn Kraft, Olivia J. Wilkinson, 2020-03-17 This book explores the interplay and dialogue between faith communities and the humanitarian development community Faith and religion are key influencers of thought and practice in many communities around the world and development practitioners would not be able to change behaviours for improved health and social relations without the understanding and influence of those with authority in communities such as religious leaders Equally religious leaders feel responsibilities to their communities but do not necessarily have the technical knowledge and resources at hand to provide the information or services needed to promote the well being of all in their scope of influence The book demonstrates that partnerships between humanitarian development practitioners and religious communities can be mutually beneficial exchanges but that there are also frequently pitfalls along the way and opportunities for lessons to be learned by each party Delving into how humanitarians and faith communities engage with one another the book focuses on building knowledge about how they interact as peers with different yet complementary roles in community development The authors draw on the Channels of Hope methodology a tool which seeks to engage faith leaders in addressing social norms and enact social change as well as other related research in the sector to demonstrate the many ways in which humanitarian and development policy makers and practitioners could achieve more systematic engagement with faith groups This book is an important contribution to the growing body of literature on faith and development and will be useful both to researchers and to practitioners working with faith communities      *National Library of Medicine Catalog* National Library of Medicine (U.S.), 1960      Ulrich's International Periodicals Directory Carolyn Farquhar Ulrich, 2001      *Peterson's Graduate Programs in Business, Education, Health, Information Studies, Law and Social Work* Peterson's Guides Staff, Peterson's Guides, Inc, 2006-12 Detailed program listings of accredited graduate programs in the physical sciences math and agricultural sciences      *International Catalogue of Scientific Literature* , 1903      **Current Catalog** National Library of Medicine (U.S.), 1980 First multi year cumulation covers six years 1965 70      Experimentelle Einführung in die Elektrochemie Joachim Dohmann, 2020-06-10 Das vorliegende Buch vermittelt wichtige Grundlagen der Elektrochemie Hierzu z hlen die Entstehung von Ladungstr gern die Mechanismen des Ladungstransports die Grundlagen der Elektrolyse Elektrochemische
