In the above mentioned diagram the timing of new project of WH Smith has been described the total activity will be of 25 days and here are many procedures but the company will take the most appropriate one. The company need to renovate the store to show case the products to grab more customer attention. According to the plans the organisation need to make planning the things like store rooms, customer galleries to sit and read books, have been included in the store that will make the customer comfortable to visit and shop for their books. CPA is basically known as network analysis. The original CPM program and its approach are no longer used. The critical path analysis can be applied to any approach used to analyze a project network logic diagram. CPA is known as the network analysis. A network consists of two things- nodes and arrow. WH Smith used this technique to judge the cost effectiveness, profitability, raw material wastage etc.

3.4. Quality and its maintenance:

In case any type product quality is the main parameter by which a customer judges the efficiency of it. The more the expectation and perception of the customer is matched the quality the product will generate. The more qualitative product will meet the expectation of the customers. In case of WH Smith the quality of the products depends upon many a thing that is the page quality, writing quality and the stationery quality and uniqueness of the products.

Quality of a product can be maintained by total quality management which focuses on customer requirements, specification of product, quality output, and control in production cost (Kelemen, 2009). Company have to keep in mind the consumers needs, have to deal with new technology, maintain the prices of their product. In case of WH Smith the product and after sales service need to be reviewed all the time. They also need to have a well set of writers who will provide the best quality of books. The newspaper should contain of the most trending news.
