Paris Trance A Romance:

Paris Trance Geoff Dyer, 2025-09-23 People talk about love at first sight about the way that men and women fall for each other immediately but there is also such a thing as friendship at first sight Luke moves to Paris with the idea of writing a novel but things get in the way He becomes friends with a fellow expatriate Alex then he falls in love with Nicole Alex meets Sahra and the two couples form an intimacy that changes their lives As they discover the clubs and cafés of the eleventh arrondissement the four become inseparable united by deeply held convictions about dating strategies tunneling in P O W films and crucially the role of the Styrofoam cup in action movies Experiencing the exhilarating highs of Ecstasy and sex they reach a peak of rapture the comedown from which is unexpected and devastating In this book Geoff Dyer fixes a dream of happiness and its aftermath with photographic precision Boldly erotic and hauntingly elegiac comic and romantic Paris Trance confirms Dyer as one of England's most original and talented writers *Paris trance* Geoff Dyer, 1999

Dancefloor-Driven Literature Simon A. Morrison, 2020-05-14 Almost as soon as club culture took hold during the UK's Second Summer of Love in 1988 its sociopolitical impact became clear with journalists filmmakers and authors all keen to use this cultural context as source material for their texts This book uses that electronic music subculture as a route into an analysis of these principally literary representations of a music culture why such secondary artefacts appear and what function they serve The book conceives of a new literary genre to accommodate these stories born of the dancefloor dancefloor driven literature Using interviews with Irvine Welsh author of *Trainspotting* 1994 alongside other dancefloor driven authors Nicholas Blincoe and Jeff Noon as case studies the book analyzes three separate ways writers draw on electronic dance music in their fictions interrogating that very particular intermedial intersection between the sonic and the linguistic It explores how such authors write about something so subterranean as the nightclub scene and analyses what specific literary techniques they deploy to write lucidly and fluidly about the metronomic beat of electronic music and the chemical accelerant that further alters that relationship **Fresh Dialogue Five** American Institute of Graphic

Branzburg,2010-04-09 This travel mystery book starts as an e journal of the six month stay in Paris of the mid career well traveled Judith and Amy Amy a rocket scientist from Pasadena California is a visiting researcher at the French National Laboratories in Paris Judith her girlfriend and a professor of English at a Los Angeles area community college is on unpaid leave accompanying her Judith with the promise of many visitors and no special projects in mind aside from learning to speak French has decided to write an e journal to friends and family Thus the book is in an epistolary form written pretty much in the present tense as it describes events shortly after they have happened and includes photos Judith or friends have taken to illustrate various points In addition to Judiths narratives and photos edited versions of replies from her correspondents which Judith was surprised to receive but felt needed to be shared in view of her commitment to community are included at the beginning of each installment after the first Overall Judith appears only a semi aware narrator coming across a bit as an innocent abroad yet at the same time is highly self reflective

about language and fills the narrative with word play parenthetical references popular culture references high and low culture jokes and philosophy Overall the tone is one of bemused innocence or slight paranoia and benign irony Judiths task of having her journal be something besides the ordinary becomes simplified when in time for the first installment she and Amy happen to be at the sight of the discovery of a dead body in a canal near the Bastille The same evening as the discovery of the body Judith and Amy are asked by their temporary landlady to assist her in securing the contents of a safe deposit box in Zurich to help her ailing aunt As Judith and Amy are heading to Zurich that week to attend the opening of a sculpture exhibit by one of their friends it seems the least they could do to help this older woman The body and the visit to the bank sets off a series of events that embroil Judith and Amy Judiths French tutor and fellow students Amys French bosses their French friends and American and other visitors in an apparent drug war Since Judith is in France illegally and subject to possible deportation Amy and Judith are forced to rely only on friends and their own ingenuity and interpretive powers to connect the clues and extricate themselves from what increasingly seems to be some sort of misunderstanding on the part of gangsters about their involvement in drug smuggling The solving of the mystery makes up the narrative line of the text But at the same time as Judith and Amy become increasingly enmeshed in mystery Judith has not forgotten that essentially her correspondence is a travel journal So she continues to interweave descriptions and ponderings on the relationships among and meanings of popular culture and customs politics critical theory science religion language class race art architecture as well as adventures and anecdotes from previous travels with Amy into the narrative Even though Judiths paranoia colors her perception and interpretation of events and thus confuses her readers about what is real and what fiction there do seem to be people following Judith and Amy and the clues Judith and Amy discover all having to do with fire water earth and air are undoubtedly real Judith and Amys efforts to follow the clues or to flee the implications of the clues lead them and their friends to a variety of spectacles in Paris as well as the Parisian canals fireworks at La Defense and la Villette a night of fountains and fireworks Versailles opera at Vaux le Viscomte the beach at La Baule in France medieval Bruges in Belgium and London England before they solve the mystery and help justice be done **The Mysteries of Paris** Eugène Sue, 1847

The Palgrave Encyclopedia of Victorian Women's Writing Lesa Scholl, Emily Morris, 2022-12-15 Since the late twentieth century there has been a strategic campaign to recover the impact of Victorian women writers in the field of English literature However with the increased understanding of the importance of interdisciplinarity in the twenty first century there is a need to extend this campaign beyond literary studies in order to recognise the role of women writers across the nineteenth century a time that was intrinsically interdisciplinary in approach to scholarly writing and public intellectual engagement **Urban Assemblages** Ignacio Fariás, Thomas Bender, 2012-08-21 This book takes it as a given that the city is made of multiple partially localized assemblages built of heterogeneous networks spaces and practices The past century of urban studies has focused on various aspects space culture politics economy but these too often address each domain and the

city itself as a bounded and cohesive entity The multiple and overlapping enactments that constitute urban life require a commensurate method of analysis that encompasses the human and non human aspects of cities from nature to socio technical networks to hybrid collectivities physical artefacts and historical legacies and the virtual or imagined city This book proposes and its various chapters offer demonstrations importing into urban studies a body of theories concepts and perspectives developed in the field of science and technology studies STS and more specifically Actor Network Theory ANT The essays examine artefacts technical systems architectures place and eventful spaces the persistence of history imaginary and virtual elements of city life and the politics and ethical challenges of a mode of analysis that incorporates multiple actors as hybrid chains of causation The chapters are attentive to the multiple scales of both the object of analysis and the analysis itself The aim is more ambitious than the mere transfer of a fashionable template The authors embrace ANT critically as much as a metaphor as a method of analysis deploying it to think with to ask new questions to find the language to achieve more compelling descriptions of city life and of urban transformations By greatly extending the chain or network of causation proliferating heterogeneous agents non human as well as human without limit as to their enrolment in urban assemblages Actor Network Theory offers a way of addressing the particular complexity and openness characteristic of cities By enabling an escape from the reification of the city so common in social theory ANT s notion of hybrid assemblages offers richer framing of the reality of the city of urban experience that is responsive to contingency and complexity Therefore Urban Assemblages is a pertinent book for students practitioners and scholars as it aims to shift the parameters of urban studies and contribute a meaningful argument for the urban arena which will dominate the coming decades in government policies
