The Reading Report Card, 1971-88 Ina V. S. Mullis, Lynn Jenkins, National Assessment of Educational Progress (Project), 1990 Intended to serve as a resource for the many and varied groups concerned with improving students reading proficiencies this report from the Nation s Report Card provides a long term perspective on students reading skills and strategies based on a series of five national assessments conducted from 1971 to 1988 Each chapter of the report provides a different perspective on trends in students reading abilities The first chapter describes changes in the average reading performance of 9 13 and 17 year olds across the five reading trend assessments conducted by the National Assessment of Educational Progress NAEP between 1971 and 1988 The second chapter defines levels of reading proficiency and presents the percentages of students attaining these successive levels in each assessment The third chapter summarizes trends in students responses to questions on their reading instruction and experiences and investigates the relationships between these background factors and reading proficiency Overall the findings described in the report reveal generally positive but subtle changes in reading performance at the national level since 1971 1 nine year olds assessed in 1988 read significantly better than their counterparts assessed in 1971 but this progress was made in the 1970s 2 thirteen year olds reading achievement has fluctuated slightly over the years and 3 seventeen year old students assessed in 1988 read significantly better than their counterparts assessed in either 1971 or 1975 A procedural appendix and an appendix of data are attached

RS **The Reading Report Card** National Assessment of Educational Progress (Project), 1985 NAEP 1994 Reading Report Card for the Nation and the States Jay R. Campbell, 1996 This report describes students reading achievements at grades 4 8 and 12 and within various subgroups of the general population State level results are presented for individual states that chose to participate in the 1994 Trial State Assessment Chapter 1 presents an overview of the 1994 NAEP reading assessment and sample questions and responses Chapter 2 provides overall average proficiency results for the nation regions subgroups of students and jurisdictions participating in the Trial State Assessment Chapter 3 describes students reading performance in terms of achievement levels Chapter 4 focuses on cross state comparisons of proficiency results from the state by state assessment at grade 4 Chapter 5 describes contextual factors related to students reading achievement Chapter 6 describes specific abilities demonstrated by students in the NAEP reading assessment and reports student performance when reading for different purposes The most striking finding from the 1994 assessment is that the average reading proficiency of 12th grade students declined significantly from 1992 to 1994 Other major findings include 1 the decline in average proficiency among 12th graders between 1992 and 1994 was concentrated among lower performing students 2 reading proficiency at all three grade levels was higher on average for students whose parents had more education 3 at all three grade levels female students had higher average reading proficiencies than male students and 4 students who reported having a greater array of literacy materials in their homes displayed higher average reading achievement Contains 38 tables

and 23 figures of data Appendixes provide an overview of procedures used in the 1994 assessment and describe students reading performance cross state proficiency and achievement level results and sample texts and questions RS *NAEP 1992 Reading Report Card for the Nation and the States* Ina V. S. Mullis,1993 The National Assessment of Educational Progress NAEP 1992 reading assessment was administered to nationally representative samples of fourth eighth and twelfth grade students attending public and private schools and to state representative public school samples of fourth graders in 43 jurisdictions Nearly 140 000 students were assessed in all Data were summarized on the NAEP reading proficiency scale ranging from 0 to 500 and results were reported according to three achievement levels at each grade basic proficient and advanced Major findings were that 1 59% of the fourth graders 69% of eighth graders and 75% of twelfth graders reached the basic level or beyond 2 25% 28% and 37% of grade 4 8 and 12 students met or exceeded the proficient level respectively 3 from 2% to 4% of students at any of the grade levels achieved the advanced performance level 4 fourth graders within the basic level generally understood simple narratives 5 eighth graders reading within the basic level demonstrated literal understanding of passages 6 twelfth graders within the basic level were able to interpret aspects of the passages they read and make connections between their reading and their own knowledge 7 students attending private schools had higher average reading proficiency than students at public schools 8 considerable variation in performance existed within and across participating states 9 females had higher average reading proficiency than males at all three grade levels and 10 fourth graders appeared to be learning reading through varied instructional approaches Contains 67 tables and 9 figures of data a detailed description of anchoring the achievement levels an overview of procedures state contextual background factors and reading passages are attached RS **Bulletin** United States.
