MacArthur, Jill Fitzgerald, 2013-03-19 This book has been replaced by Best Practices in Writing Instruction Third Edition ISBN 978 1 4625 3796 9 *Teaching Life Skills in the School Library* Blanche Woolls, Connie Hamner Williams, 2019-03-08 Drawing on stories from successful programs and research this book shows librarians how to provide students with the practical information they need for a bright future Chapters cover career readiness financial literacy and civic responsibility at each grade level From preschool through high school students are preparing for their future As they move through grade levels they choose courses research potential careers learn about managing money and recognize the responsibilities of being active citizens At each step of the way librarians can collaborate with teachers to help students to learn how to live in a world they can only imagine School librarians are positioned to make a positive impact on students lives when it matters most Focusing on preparation for life after high school this book cites research and provides anecdotes of successful programs as examples of how school librarians in collaboration with counselors community members public libraries and teachers can develop collections and offer programming to show students the importance of finishing high school Chapters also explain how to help students to find the college or university that fits with their educational interests and won t cause them to incur enormous debt Included in every chapter are activities resources and lesson plans around topics at each grade level for librarians to co teach with teachers counselors and other school staff Unequal Lessons Alexandra Freidus, 2025-08-05 Diversity and racial integration efforts are not sufficient to address educational inequality New York City schools are among the most segregated in the nation Yet over seven decades after the Brown v Board of Education decision New Yorkers continue to argue about whether school segregation matters Amid these debates Alexandra Freidus dives deep into the roots of racial inequality in diversifying schools asking how we can better understand both the opportunities and the limits of school diversity and integration Unequal Lessons is based on six years of

observations and interviews with children parents educators and district policymakers about the stakes of racial diversity in New York City schools The book examines what children learn from diversity exploring both the costs and benefits of school integration By drawing on students first hand experiences Freidus makes the case that although a focus on diversity offers many benefits to students it often reinscribes rather than diminishes existing inequalities in school policy and practice The idea of diversity for its own sake is frequently seen as the solution with students of color presumed to benefit from their experiences with white students while schools fail to address structural inequality Though educators and advocates often focus on diversity out of a real desire to make a positive difference in students lives this book makes clear the gaps between good intentions and educational injustice
