Being Neighbours Catharine Anne Wilson,2022-10-28 Throughout history farm families have shared work and equipment with their neighbours to complete labour intensive time sensitive and time consuming tasks They benefitted materially and socially from these voluntary flexible loosely structured networks of reciprocal assistance making neighbourliness a vital but overlooked aspect of agricultural change Being Neighbours takes us into the heart of neighbourhood the set of people near and surrounding the family through an examination of work bees in southern Ontario from 1830 to 1960 The bee was a special event where people gathered to work on a neighbour s farm like bees in a hive for a wide variety of purposes including barn raising logging threshing quilting turkey plucking and apple paring Drawing on the diaries of over one hundred men and women Catharine Wilson takes readers into families daily lives the intricacies of their labour exchange and their workways feasts and hospitality Through the prism of the bee and a close reading of the diaries she uncovers the subtle social politics of mutual dependency the expectations neighbours had of each other and their ways of managing conflict and crisis This book adds to the literature on cooperative work that focuses on evaluating its economic efficiency and complicates histories of capitalism that place communal values at odds with market orientation Beautifully written engaging and richly detailed and illustrated Being Neighbours reveals the visceral textures of rural life Standards and Standardization: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2015-02-28
