Job-Embedded Professional Development Sally J Zepeda, 2014-09-12 In today's schools teachers are frequently called on to adapt new curricula and instructional practices in their classrooms Making sense of the complexities of teaching occurs primarily during the work day and instead of relying on before or after school one size fits all professional development activities schools must support teachers in learning on the job The latest book from renowned author Sally J Zepeda is written for teachers teacher leaders and school and district leaders who want to support job embedded learning a powerful form of professional development characterized by active learning and reflection grounded in the context of a teachers work environment Job Embedded Professional Development provides a framework for helping teachers stop take a deep breath and learn along the way as they engage in their daily work Through the engaging job embedded learning activities processes and cases from the field explored in this book teachers will immediately be able to Implement what they are learning in the context of their own classrooms Work with supportive peers who can coach them along the way Get feedback on what's working and what needs to be tweaked Learn as adult learners fully capable of making sound professional judgments Engage in conversations that allow teachers to dig deeper into their practices Focus intently on content knowledge and the linkages to instruction and assessment Capitalize on learning in digital learning environments before during and after school Gain confidence in themselves and others through learning together

The Effect of Algebra Support Classes on EOCT Scores and SGP Data Lynn Harris Parker, 2015 Schools are having to find innovative ways to increase the instructional time in the school day to not only address deficiencies in student mathematical knowledge but to also increase the academic rigor and prepare students for college and careers The most popular approach is double dosing where students give up an elective class in order to take an additional mathematics class Whereas this is a popular approach there have not been very many studies on the effectiveness of this practice This study adds to the body of knowledge on double dosing by analyzing the effectiveness of the support class through student achievement on the state End of Course Coordinate Algebra test as well as through Student Growth Percentiles Analysis of Covariance ANCOVA was used for all analyses Criterion Referenced Competency Test scores were used as the covariate The participants in this study were first time freshmen enrolled in Coordinate Algebra in an urban district of approximately 25 000 total students Data indicated that the interaction between support classes and school year were trending toward significance for both the End of Course scores $p = .056$ as well as Student Growth Percentiles $p = .068$ In the second year of the study students enrolled in the Mathematics Support class scored higher on the End of Course test and had higher Student Growth Percentiles Additionally there was a significant main effect for support class on the Student Growth Percentiles $p = .028$ Students in the support class did achieve significantly higher growth than students who were not concurrently enrolled in the support class Whereas increases in mathematical growth do not necessarily result in increases in achievement scores as evidenced by the data in this study the Mathematics Support classes

are effective in increasing student learning in mathematics
