

Lesson Plan 2: Probability

Faculty Name: Erika Downing

School: Oakhurst Middle School Clarksdale, MS

Grade Level: 6

Teaching Objective(s)

- Collect, organize, and summarize data and use simple probability.
 - Calculate and apply basic probability.

Instructional Activities

- The teacher will say, "Today we are going to do an activity with probability." The teacher will review probability including definition and how to find the probability.
- The teacher will ask, "What do you think are the most commonly used letters in the English language?" The students will list on paper their predictions starting with the letter they think is most common.
- The students will share their predictions with their group members and the group will make one list.
- Each student will pick two sentences from a book (either a textbook or another book they have) and tally how many times each letter appears in each sentence using the activity sheet provided.
- The teacher will compile each group's responses and make one class chart at the front of the room. (This can be done on the board or on butcher paper.)
- The class will analyze the class chart and list the letters of the alphabet in the order of frequency according to the students' findings.
- The class will compare the results with their predictions and with the actual order of frequency in the English language:
E T A O (N I) S R H L D C U (P F) M W Y (B G) V K (Q X) (J Z)
(Those grouped together with parenthesis have the same frequency of occurrence)
(This information came from source.)
- The teacher will write a sentence on the board. This can be a made up sentence or the following sentence could be used for demonstration.
Mr. Jones's math class has an excellent selection of mathematicians.

The Mathematics Lesson-Planning Handbook, Grades 6-8 Lois A. Williams, Beth McCord Kobett, Ruth Harbin Miles, 2018-12-28 Your blueprint to planning Grades 6-8 math lessons that lead to achievement for all learners When it comes to planning mathematics lessons do you sometimes feel burdened Have you ever scrambled for an activity to engage your students that aligns with your state standards Do you ever look at a recommended mathematics lesson plan and think This will never work for my students The Mathematics Lesson Planning Handbook Your Blueprint for Building Cohesive Lessons Grades 6-8 walks you step by step through the process of planning focused research based mathematics lessons that enhance the coherence rigor and purpose of state standards and address the unique learning needs of your individual students This resource deepens the daily lesson planning process for middle school teachers and offers practical guidance for merging routines resources and effective teaching techniques into an individualized and manageable set of lesson plans The effective planning process helps you Identify learning intentions and connect goals to success criteria Select resources and worthwhile tasks that make the best use of instructional materials Structure lessons differently for traditional and block middle school schedules Anticipate student misconceptions and evaluate understanding using a variety of formative assessment techniques Facilitate questioning encourage productive struggle and close lessons with reflection techniques This author team of seasoned mathematics educators make lesson planning practical and doable with a useful lesson planning template and real life examples from Grades 6-8 classrooms Chapter by chapter the decision making strategies empower teachers to plan mathematics lessons strategically to teach with intention and confidence and to build purposeful rigorous coherent lessons that lead to mathematics achievement for all learners *Teaching Secondary and Middle School Mathematics* Daniel J. Brahier, 2016-02-12 Teaching Secondary and Middle School Mathematics combines the latest developments in research standards and technology with a vibrant writing style to help teachers prepare for the excitement and challenges of teaching secondary and middle school mathematics today In the fully revised fifth edition scholar and mathematics educator Daniel Brahier invites teachers to investigate the nature of the mathematics curriculum and reflect on research based best practices as they define and sharpen their own personal teaching styles The fifth edition has been updated and expanded with a particular emphasis on the continued impact of the Common Core State Standards for Mathematics and NCTM's just released Principles to Actions as well as increased attention to teaching with technology classroom management and differentiated instruction Features include A full new Chapter 7 on selection and use of specific tools and technology combined with Spotlight on Technology features throughout clearly illustrate the practical aspects of how technology can be used for teaching or professional development Foundational Chapters 1 and 2 on the practices and principles of mathematics education have been revised to build directly on Common Core State Standards for Mathematics and Principles to Actions with additional references to both documents throughout all chapters A new Chapter 4 focuses on the use of standards in

writing objectives and organizing lesson plan resources while an updated Chapter 5 details each step of the lesson planning process A fully revised Chapter 12 provides new information on teaching diverse populations and outlines specific details and suggestions for classroom management for mathematics teachers Classroom Dialogues features draws on the author s 35 year experience as an educator to present real world teacher student conversations about specific mathematical problems or ideas How Would You React features prepares future teachers for real life scenarios by engaging them in common classroom situations and offering tried and true solutions With more than 60 practical classroom tested teaching ideas sample lesson and activities Teaching Secondary and Middle School Mathematics combines the best of theory and practice to provide clear descriptions of what it takes to be an effective teacher of mathematics Resources in Education ,2001-04 Lesson Plans for Instruction of Data Analysis and Probability Dana Dawson,2005 Recent testing has shown that students in the Title I mathematics program at Moriarty Middle School are performing below grade level in all mathematic content areas In an attempt to bring these at risk students up to grade level in their mathematics readiness levels an individualized program has been developed During the school year of 2003 2004 the Number Sense and Number Operation Strand for grades 3 through 8 of the New Mexico State Standards and Benchmarks were incorporated into this curriculum It is the purpose and goal of this project to add the standards and benchmarks for the 5th and 6th grade Data Analysis and Probability Strand to the curriculum of the Title I Mathematics Program This report includes a summary of the Data Analysis and Probability Strand of the New Mexico State Standards and Benchmarks lessons that teach to these standards and student assessment data that demonstrates the effectiveness of these lessons and of the Title I Mathematics Program at Moriarty Middle School

Research in Education ,1974 **Teaching Mathematics in Grades 6 - 12** Randall E. Groth,2012-08-10 A journey into the vibrant and intriguing world of mathematics education Teaching Mathematics in Grades 6 12 explores how research in mathematics education can inform teaching practice in grades 6 12 The author shows secondary mathematics teachers the value of being a researcher in the classroom by constantly experimenting with methods for developing students mathematical thinking and then connecting this research to practices that enhance students understanding of the material The chapters in Part I introduce secondary teachers to the field of mathematics education with cross cutting issues that apply to teaching and learning in all mathematics content areas The chapters in Part II are devoted to specific mathematics content strands and describe how students think about mathematical concepts The goal of the text is to have secondary math teachers gain a deeper understanding of the types of mathematical knowledge their students bring to grade 6 12 classrooms and how students thinking may develop in response to different teaching strategies *Teaching Children Mathematics* ,2009-08

Teaching in the Standards-based Classroom ,2001 Virtually every national standards document every state framework and every local set of standards calls for fundamental changes in what and how teachers teach The challenge for teachers is to implement the vision for mathematics and science classrooms called for in the standards This issue describes that vision

and suggests ways to use the standards mandated in your school to improve your practice to help you teach in your standards based classroom *Better Lesson Plans, Better Lessons* Ben Curran, 2015-09-25 In today's high stakes world ready made lessons and teacher's guides are no longer enough to guarantee achievement The best way to help students succeed is through deliberate and careful lesson planning focused on the end result of increasing student achievement Whether you are a new teacher or an experienced educator this book will help you get started by providing a practical step by step guide to designing lessons that will lead to student mastery of any objective You'll learn the essential components of lessons that are Common Core aligned and grounded in best practices Topics include Tailoring your lessons to meet your state standards while ensuring high student achievement Writing a strong objective to stay focused on the goal of a lesson Creating an end of lesson assessment to gauge the lesson's success Constructing a lesson plan that combines direct instruction guided practice and independent practice Along the way you'll find plenty of helpful examples from math and English Language Arts You'll also find end of chapter FAQs and activities to try to help you make these concepts a reality for your own classroom Many of the tools from the book are also available as free downloads from our website www.routledge.com/books/details/9781138838871 *Lessons from the Middle* Sandra Kaplan, Sandra Nina Kaplan, Michael W. Cannon, 2001 From writing mysteries to studying the human genome project these model lessons from the core academic areas will excite your students and save you planning time These standards based lessons and units of study will promote high end learning for gifted students in middle school Grades 6-8 **ENC Focus**, 2001 **Advanced Intelligent Computing Technology and Applications** De-Shuang Huang, Chuanlei Zhang, Qinhu Zhang, Yijie Pan, 2025-07-25 The 12 volume set CCIS 2564-2575 together with the 28 volume set LNCS LNAI LNBI 15842-15869 constitutes the refereed proceedings of the 21st International Conference on Intelligent Computing ICIC 2025 held in Ningbo China during July 26-29 2025 The 523 papers presented in these proceedings books were carefully reviewed and selected from 4032 submissions This year the conference concentrated mainly on the theories and methodologies as well as the emerging applications of intelligent computing Its aim was to unify the picture of contemporary intelligent computing techniques as an integral concept that highlights the trends in advanced computational intelligence and bridges theoretical research with applications Therefore the theme for this conference was Advanced Intelligent Computing Technology and Applications *Educators Guide to Free Internet Resources* Educators Progress Service, 2007-05 To provide our customers with a better understanding of each title in our database we ask that you take the time to fill out all details that apply to each of your titles Where the information sheet asks for the annotation we ask that you provide us with a brief synopsis of the book This information can be the same as what may appear on your back cover or an entirely different summary if you so desire **Pursuing Practical Change** Heather Dean, Amber E. Wagnon, 2024-02-27 Today's educators are aware of the need for social emotional learning in their classroom and can share the tenets of a culturally responsive pedagogy However what they lack is the practical strategies for

implementation of these pivotal classroom practices Pursuing Practical Change Lesson Designs That Promote Culturally Responsive Teaching is an answer to this need This book goes beyond just providing theory and data but delves into the actual practices needed to be successful in today s classroom Within the chapters of this book both novice and veteran teachers will find support through the lesson plans of practitioners their reflections and various strategies for classroom instruction

Teaching Secondary Mathematics David Rock,Douglas K.
