No power / won't get into programming mode

1) Verify that the connection interface. Make sure the PSWIFC is connected to vehicle's battery, not constant battery. Otherwise, programming is not.

The PSWIFC controls the doors immediately without pressing any buttons on the steering wheel

The PSWIFC controls the radio when on the steering wheel is turned (mostly late 80's early 90's Honda/Acura)

Program built-in PSWIFC 2 for version 4.1.

When user's program a new button the previous button does not work

When programming, all buttons during programming. If you try to program another button, all previous button will be stored. You will have to release all previous buttons again.
