Janice K Ledford's exam review manuals have been the must-have certification study aids used by those wishing to advance their careers with increased knowledge and certification. This third edition of Certified Ophthalmic Technician Exam Review Manual provides the ultimate experience in exam preparation. This best-selling text is ideal for both individual and group study. The explanatory answers contribute to your understanding of the material rather than only providing right or wrong feedback. Certified Ophthalmic Technician Exam Review Manual Third Edition expands on what was originally the only study material available for this highly specialized exam. It remains the go-to source for the most questions and explanatory answers and has been updated to the latest IJCAHPO criteria. With more than 1800 questions, this text covers all 22 of IJCAHPO's criteria subjects at the COT level.

Moorfields Manual of Ophthalmology Timothy L Jackson, 2019-11-30. This third edition expands on the success of the best-selling second edition to create the most practical and accessible ophthalmology manual for trainees. With its succinct practical text, profusion of clinical photos and descriptions of procedures, the Moorfields Manual of Ophthalmology has established itself as one of the most popular and recognisable clinical resources available to ophthalmologists and optometrists. Trainee reviewers provided feedback on the second edition that guided improvements to the third edition. DESIGN: Colour-coded chapter tabs to improve navigation. Descriptions of common procedures appear in discrete boxes, making them more prominent and accessible. STRUCTURE: New Triage chapter provides 15 algorithms based on common signs and symptoms and refers readers to the relevant sections on management. CONTENT: All content updated in line with current best practice. Key Studies sections summarising landmark trials and their relevance to clinical practice. Additional and replacement photos showing better, clearer examples of clinical signs. Additional colour diagrams depicting anatomic structures and procedures. Selective inclusion of less common diseases and treatments.
