Beretta,1992-02-27 Counter Responsibility for planning language teaching programs now carries with it a strong element of accountability Evaluation of the whole process of course design development and implementation is therefore a necessary area of activity for course designers language planners and researchers This book brings together accounts of recent work in this increasingly important field and will be a valuable resource both for those already engaged in evaluation and for those in training Part One presents a review of the literature covering past developments in the wider field of educational evaluation as well as specifically in second language education Part Two contains a series of eight original case studies written by scholars involved in evaluations in widely divergent settings The focus in each case is on how the evaluator addresses the difficulties central to each study and the findings are also included The final Part Three provides practical guidance for evaluators offering suggestions about how to set up and carry out evaluations in any given setting Publisher s website

God's Perfect Child Caroline Fraser,2000-08 From a former Christian Scientist the first unvarnished account of one of America s most controversial and little understood religious movements Millions of americans from Lady Astor to Ginger

Rogers to Watergate conspirator H R Haldeman have been touched by the Church of Christ Scientist Founded by Mary Baker Eddy in 1879 Christian Science was based on a belief that intense contemplation of the perfection of God can heal all ills an extreme expression of the American faith in self reliance In this unflinching investigation Caroline Fraser herself raised in a Scientist household shows how the Church transformed itself from a small eccentric sect into a politically powerful and socially respectable religion and explores the human cost of Christian Science s remarkable rise Fraser examines the strange life and psychology of Mary Baker Eddy who lived in dread of a kind of witchcraft she called Malicious Animal Magnetism She takes us into the closed world of Eddy s followers who refuse to acknowledge the existence of illness and death and reject modern medicine even at the cost of their children s lives She reveals just how Christian Science managed to gain extraordinary legal and Congressional sanction for its dubious practices and tracks its enormous influence on new age beliefs and other modern healing cults A passionate expos of zealotry God s Perfect Child tells one of the most dramatic and little known stories in American religious history **Resources in Education** ,1997 Cauldron of the Gods Jan Fries,2005

Imagine the forest As darkness falls the somber beeches disappear in misty twilight and shadows seem to gather under their branches Far away the blackbird s call tells of the coming of the night The birds cease their singing silence descends soon the beasts of the night will make their appearance Between tangled roots hidden by nettles and brambles the earth seems to ripple A few humps of earth seem to emerge from the ground They are the last traces of burial mounds of mounds which were tall and high 2500 years ago Many of them have disappeared hidden by tangled roots of beech and oak ploughed flat by careless farmers others again show caved in tops where grave robbers have looted the central chamber The locals shun these hills There are tales that strange fires can be seen glowing on the mounds and that on spooky nights great armed warriors arise from their resting places Then the doors to the deep are thrown open and unwary travelers have to beware of being invited into the halls of the dead and unborn Here the kings of the deep feast and celebrate time passes differently and strange treasures may be found Who knows the nights when the gates are open Who carries the primrose the wish flower the strange blossom that opens the doors to the hollow hills **Child Autonomy and Child Governance in Children's**

Literature Christopher Kelen,Bjorn Sundmark,2016-11-18 This book explores representations of child autonomy and self governance in children s literature The idea of child rule and child realms is central to children s literature and childhood is frequently represented as a state of being with children seen as aliens in need of passports to Adultland and vice versa In a sense all children s literature depends on the idea that children are different separate and in command of their own imaginative spaces and places Although the idea of child rule is a persistent theme in discussions of children s literature or about children and childhood the metaphor itself has never been properly unpacked with critical reference to examples from those many texts that are contingent on the authority and or power of children Child governance and autonomy can be seen as natural or perverse it can be displayed as a threat or as a promise Accordingly the child rule motif can be seen in

Robinsonades and horror films in philosophical treatises and in series fiction The representations of self ruling children are manifold and ambivalent and range from the idyllic to the nightmarish Contributors to this volume visit a range of texts in which children are in various ways empowered discussing whether childhood itself may be thought of as a nationality and what that may imply This collection shows how representations of child governance have been used for different ideological aesthetic and pedagogical reasons and will appeal to scholars of children s literature childhood studies and cultural studies
