Hot Sky at Midnight Robert Silverberg, 2014-04-01 Intelligent and engaging science fiction set against the backdrop of an environmental apocalypse from the SF Grand Master The Washington Post Not so very far in the future the icecaps have melted and many coastal communities have been flooded out The ozone layer is destroyed Some areas are livable with breathing masks and injections that protect the skin from the now deadly rays of the sun but the only real refuge for those who can afford it has become the near space orbital colonies built and run by private companies Valparaiso Nuevo is one of these colonies a haven and a center of action for hustlers conspirators and people looking for an edge It is also the target of a disillusioned group of humans who become embroiled in a scheme to overthrow it Their goals are individually motivated but the deadly combination of ambition distrust greed stupidity and lust leads to a dramatic conclusion that replicates in miniature the

history of man's destruction of his own living space on the planet. A bleak picture of future Earth and a complex plot peopled with dark, rich characters comes together as one of Silverberg's finer novels. Silverberg focuses on his characters and their ruined world, providing a convincing portrayal of life in a greenhouse effect-cursed future. He delivers powerful images of a world blighted by ecological abuse and a satisfying novel as well. Publishers Weekly It's definitely major Silverberg and as such deserves all the readers it will undoubtedly get. Booklist

The World Inside Robert Silverberg, 2010-05-22 Earth is home to seventy-five billion souls in this Hugo Award-nominated novel. A major work of contemporary science fiction. Locus Welcome to Urban Monad 116. Reaching nearly two miles into the sky, the one thousand stories of this building are home to over eight hundred thousand people living in peace and harmony. In the year 2381, with a world population of over seventy-five billion souls, the massive Urbmon system is humanity's salvation. Life in Urbmon 116 is cherished and highly regulated. The culture of procreation is seen as the highest pinnacle of god's plan. Conflict is abhorred, and any who disturb the peace face harsh punishment, even being sent down the chute to be recycled as fertilizer. But not everyone has fallen completely in line. Jason Quevedo, a historian, searches records of the twentieth century, hoping to find the root of his discontent with the perfection of Urbmon life. Siegmund Kluver, a young ambitious administrator, strives to reach the top levels of the Urbmon's government and discovers the civilization's dark truths. Michael Statler, a computer engineer, harbors a forbidden desire to leave the building to walk in the open air and visit the far-off sea. This is a dream he must keep secret. If anyone were to find out, he'd face the worst punishment imaginable. **The World Inside** is a fascinating exploration of society and what makes us human, told by a master of speculative fiction and winner of numerous Nebula and Hugo Awards.

Master of Life and Death Robert Silverberg, 2015-10-22 By the 23rd century, Earth's population had reached seven billion. Mankind was in danger of perishing for lack of elbow room unless prompt measures were taken. Roy Walton had the power to enforce those measures. But though his job was in the service of humanity, he soon found himself the most hated man in the world. For it was his job to tell parents their children were unfit to live; he had to uproot people from their homes and send them to remote areas of the world. Now threatened by mobs of outraged citizens, denounced and blackened by the press, Roy Walton had to make a decision: resign his post or use his power to destroy his enemies and become a dictator in the hopes of saving humanity from its own folly. In other words, should he become the MASTER OF LIFE AND DEATH?
