Complaints Commission Great Britain: Parliament: House of Commons: Home Affairs Committee,2013-02 When public trust in the police is tested by complaints of negligence misconduct and corruption a strong watchdog is vital to get to the truth but the IPCC leaves the public frustrated and faithless The public are bewildered by its continued reliance on the very forces it is investigating The IPCC investigated just a handful of cases and often arrived at the scene late when the trail had gone cold Serious cases involving police corruption or misconduct are left underinvestigated while the Commission devotes resources to less serious complaints It is woefully underequipped to supervise the 43 forces of England and Wales never mind the UKBA HMRC NCA and all the private sector agencies involved in policing It is buried under the weight of poor police investigations and bound by its limited powers The Committee makes a number of recommendations including that the Commission should be given a statutory power to require a force to implement its findings and in the most serious cases the Commission should instigate a year on review to ensure that its recommendations have been properly carried out the Commission should be given a statutory power to require a force to implement its findings and the most serious cases the Commission should instigate a year on review the Commission s jurisdiction should be extended to cover private sector contractors

Corporate Finance for Long-Term Value Dirk Schoenmaker,Willem Schramade,2023-09-13 This open access textbook offers a guide to corporate finance for modern companies that want to create long term value Drawing on recent literature on sustainable companies it starts by analysing the Sustainable Development Goals as a strategy for the transition to a sustainable economy Next it translates the general concept of sustainability into core corporate finance methods such as net present value company valuation cost of capital capital structure and M A Current corporate finance textbooks are primarily based on the shareholder model designed to maximise financial value This book instead adopts the integrated model which argues that companies have to serve the interests of their current and future stakeholders Accordingly companies move from simply maximising financial value to optimising integrated value which combines financial

social and environmental value Applying this new paradigm of integrated value is the truly innovative feature of this textbook Written for undergraduate and graduate students of Finance Economics and Business Administration this textbook provides a fresh analysis of corporate finance Combining theory empirical data and examples from actual companies it reveals the sustainability challenges for corporate investment and shows how finance can be used to steer funds to sustainable companies and projects and thus accelerate the transition to a sustainable economy

Acceptable Risk Processes Craig Taylor, Erik VanMarcke, 2002-01-01 Prepared by the Council on Disaster Reduction and the Technical Council on Lifeline Earthquake Engineering of ASCE This TCLEE Monograph provides engineers and decision makers with tools to help them better understand acceptable risk processes and then develop risk reduction strategies and implement mitigation actions to reduce lifeline losses from future earthquakes The disruption of lifelines from natural hazards has a direct impact on the world's regional economies and the health of their citizens Therefore it is important to understand what natural hazards are how they can affect infrastructure lifelines and what can be done to minimize their impact These three elements in turn influence decisions that involve acceptable risk processes The topic of acceptable risk provides one way of bringing integrated systems risk evaluations for disaster explicitly into a decision making context Topics include technical issues risk criteria issues and communication administration and regulation issues

Harnessing Technology for Inclusive Prosperity Brahima Coulibaly, Zia Qureshi, 2024-06-25 Transformative new technologies are reshaping economies and societies But as they create new opportunities they also pose new challenges not least of which is rising inequality Increased disparities and related anxieties are stoking societal discontent and political ferment Harnessing technological transformation in ways that foster its benefits contain risks and build inclusive prosperity is a major public policy challenge of our time and one that motivates this book In what ways are the new technologies altering markets business models work and in turn economic growth and income distribution How are they affecting inequality within advanced and emerging economies and the prospects for economic convergence between them What are the implications for public policy What new thinking and adaptations are needed to realign institutions and policies at national and global levels with the new dynamics of the digital era This book addresses these questions It seeks to promote ideas and actions to manage digital transformation and the latest advances in artificial intelligence with foresight and purpose to shape a more prosperous and inclusive future

Robin Hood Math Noah Giansiracusa, 2025-08-05 How the rich and powerful use math to exploit you and what you can do to beat them at their own game Everything we do today is recorded as data that's sold to the highest bidder Plugging our personal data into impersonal algorithms has made government agencies more efficient and tech companies more profitable

But all this comes at a price It s easy to feel like an insignificant number in a world of number crunchers who care more about their bottom line than your humanity It s time to flip the equation turning math into an empowering tool for the rest of us Award winning mathematician Noah Giansiracusa explains how the tech giants and financial institutions use formulas to get ahead and how anyone can use these same formulas in their everyday life You ll learn how to handle risk rationally make better investments take control of your social media and reclaim agency over the decisions you make each day In a society that all too often takes from the poor and gives to the rich math can be a vital democratizing force Robin Hood Math helps you to think for yourself act in your own best interests and thrive *IPCC/SIGDOC 2000* ,2000 *Work/Life City Limits* H. Jarvis,2005-09-15 This book demonstrates how local contexts of urbanization and cultures of work are intimately meshed together Each chapter explores a discrete dimension of the way people organize their working lives in post industrial cities taking close account of the social and environmental impact of this balancing act The book features cross national and inter city comparative household level research highlighting significant contradictions underpinning the nature of production consumer expectation work life balance and urban environmental quality **Encyclopedia of global warming and climate change** S. George Philander,2008-04-22 This is a collection of approximately 750 articles exploring major topics related to global warming and climate change ranging geographically from the North Pole to the South Pole and thematically from social effects to scientific cause It also covers industrial and economic factors the role of societies and much more
