Woman and Nation Jean Kim,2021-10-01 Kim reads the Gospel of John from a postcolonial feminist perspective as a patriarchal nationalist discourse The author examines effects of colonialism in twentieth century Korean cultural experience as seen in social memory pervasive emotional nonlinear experience of the collective or oral traditions to develop an intercontextual lens through which she examines the role of the Johannine female characters in supporting Jesus s role as a national hero and in functioning as continuers of the nation In her unique handling of the Gospel of John the author describes how John s resistance to Roman imperial power defines and shapes the boundaries of his Jewish nationalism in relation to the symbolic meanings attached to the female characters sexuality and gender roles *Geography, Religion, Gods, and Saints in the Eastern Mediterranean* Erica Ferg,2020-01-16 Geography Religion Gods and Saints in the Eastern Mediterranean

explores the influence of geography on religion and highlights a largely unknown story of religious history in the Eastern Mediterranean. In the Levant, agricultural communities of Jews, Christians, and Muslims jointly venerated and largely shared three important saints or holy figures: Jewish Elijah, Christian St. George, and Muslim al-Khidr. These figures share peculiar characteristics such as associations with rain, greenness, fertility, and storms. Only in the Eastern Mediterranean are Elijah, St. George, and al-Khidr shared between religious communities or characterized by these same agricultural attributes. Attributes that also were shared by regional religious figures from earlier time periods such as the ancient Near Eastern Storm god Baal Hadad and Levantine Zeus. This book tells the story of how that came to be and suggests that the figures share specific characteristics over a very long period of time because these motifs were shaped by the geography of the region. Ultimately, this book suggests that regional geography has influenced regional religion; that Judaism, Christianity, and Islam are not historically or textually speaking separate religious traditions even if Jews, Christians, and Muslims are members of distinct religious communities; and that shared religious practices between members of these and other local religious communities are not unusual. Instead, shared practices arose out of a common geographical environment and an interconnected religious heritage and are a natural historical feature of religion in the Eastern Mediterranean. This volume will be of interest to students of ancient Near Eastern religions, Judaism, Christianity, Islam, sainthood, agricultural communities in the ancient Near East, Middle Eastern religious and cultural history, and the relationships between geography and religion.

The Egyptian Oracle Project Robyn Gillam, Jeffrey Jacobson, 2015-07-30 For more than 2 000 years between 1500 BCE and 600 CE the Egyptian processional oracle was one of the main points of contact between temple based religion and the general population In a public ceremony a god would indicate its will or answer questions through the movements of a portable cult statue borne by priests or important members of the community The Egyptian Oracle Project is an interactive performance that adapts this ceremony to serve as the basis for a mixed reality educational experience for children and young adults using both virtual reality and live performance The scene is set in a virtual Egyptian temple projected onto a wall An oracle led by a high priest avatar controlled by a live human puppeteer is brought into the presence of a live audience who act in the role of the Egyptian populace Through the mediation of an actress the audience interacts with the avatar recreating the event The series of carefully focused essays in this book provides vital background to this path breaking project in three sections After a brief introduction to educational theatre and virtual reality the first section describes the ancient ceremony and its development along with cross cultural connections Then the development of the script and its performance in the context of mixed reality and educational theatre are examined The final set of essays describes the virtual temple setting in more detail and explores the wider implications of this project for virtual heritage
