The World Bank's Lawyers Dimitri Van Den Meerssche, 2022-09-12 The World Bank s Lawyers provides an original socio legal account of the evolving institutional life of international law Informed by oral archives months of participant observation interviews legal memoranda and documents obtained through freedom of information requests it tells a previously untold story of the World Bank s legal department between 1983 and 2016 This is a story of people and the beliefs they have the influence they seek and the tools they employ It is an account of the practices they cling to and how these practices gain traction or how they fail to do so in an international bureaucracy Inspired by actor network theory relational sociologies of association and performativity theory this ethnographic exploration multiplies the matters of concern in our study of international law and lawyering the human and non human material and semantic visible and evasive actants that tie together the fragile fabric of legality In tracing these threads this book signals important changes in the conceptual repertoire and materiality of international legal practice as liberal ideals were gradually displaced by managerial modes of evaluation It reveals a world teeming with life a space where professional postures and prototypes

aesthetic styles and technical routines are woven together in law's shifting mode of existence. This history of international law as a contingent cultural technique enriches our understanding of the discipline's disenchantment and the displacement of its traditional tropes by unexpected and unruly actors. It thereby inspires new ways of critical thinking about international law's political pathways, promises and pathologies as its language is inscribed in ever-evolving rationalities of rule.

The World Bank Group A to Z 2016 World Bank Group, 2015-10-02 The World Bank Group A to Z provides the most concise and essential information about the mission, policies, procedures, products and services of the new World Bank Group. This second edition is a follow-up to the first volume released for the 2014 Annual Meetings. The World Bank Group A to Z series builds on previous editions of A Guide to the World Bank to include features not found in its predecessors, including a graphical introduction to the World Bank Group highlighting the Bank Group's goals, financials, regions and results, examples and photos of Bank Group projects and programs, and tools to guide you to the information you are looking for, even if you don't know exactly what that is. It also reflects the wide-ranging reforms that have taken place within the World Bank Group in recent years, including the launch of the new World Bank Group Strategy, new approaches to development, the establishment of new Global Practice Groups and Cross-Cutting Solutions Areas, and the goal of becoming a Solutions Bank, one that will marshal the vast reserves of evidence and experiential knowledge across the five World Bank Group agencies and apply them to local problems. With more than 280 entries arranged in encyclopedic A to Z format, readers can easily find up-to-date information about the five agencies of the World Bank Group and the wide range of areas in which they work, from agriculture, education, energy, health, social protection and labor to gender, jobs, conflict, private sector development, trade, water and climate change. The World Bank Group's work in all of these areas now focuses on two new twin goals: eliminating extreme poverty by 2030 and boosting shared prosperity of the poorest 40 percent in every developing country.

The World Bank Forest Strategy, 2000-01-01 This report assesses progress since the World Bank first issued its comprehensive Forest Strategy in 1991. It finds that the effectiveness of the strategy has been modest and the sustainability of its impact is uncertain. The Report identifies seven factors that would make the World Bank forest strategy more pertinent to current circumstances, as well as strengthening its ability to achieve its strategic objectives in the forest sector. It recommends that the World Bank use its global reach to address mechanisms for mobilisation of concessional international resources outside its normal lending activities. It also advises the World Bank to be proactive in establishing partnerships with all relevant stakeholders: governments, the private sector and civil society to meet both its country and global roles. The focus on primary tropical moist forests should be broadened to include all types of natural forests of national and global value. The report suggests that illegal logging needs to be reduced through the promotion of improved governance and enforcement. Other recommendations are to give consideration to forest issues in all relevant sector activity and macroeconomic work, address the employment needs of all poor people while continuing to protect the rights of indigenous people and to realign the World
