Relevant points may include: AO1 • TNCs, given that they are trans-national, are at the core of globalisation and profit from the movement towards free trade and lobby for privatisation, deregulation and free trade • they profit from free-market liberalisation and privatisation because it increases their sales and reduces their costs • there are benefits for the owners/shareholders of TNCs • there may be benefits for the workforce and citizens in communities in both developed and developing countries • there will also be costs in both developed and developing countries, which may be environmental but also social and economic AO2 • corporations are profit driven by definition and seek to cut costs hence the importance of outsourcing which brings jobs but they are often poorly paid
