Julie H. Kim, 2014-01-10 During the interwar golden age of British detective fiction women writers like Dorothy L Sayers and Agatha Christie reigned but their work remains tame compared to today's crime novels. Elements of sexuality and gender including soft porn and sexual psychopathy pervade contemporary detective fiction. The 10 essays in this collection explore issues of gender and sexuality in crime writing by women from 1985 to 2011 surveying works about girl sleuths, parodies, hard-boiled detective fiction, police procedurals, and recent serial killer series. They examine the relationship between genre and gender and explore how later works enter into a field of post feminism. Most importantly, this volume demonstrates how popular women writers of the last three decades have reconceptualized what it means to be a female detective. **The**

Power of Place Diane Hebley, 1998 The author discusses the books and writers published between 1970 and 1989. She argues that the New Zealand seascape and landscape have been powerful forces in our children's literature. Inherently dangerous, they have given rise to stories of challenge and adventure. She also shows how a sense of place has given writers a way of exploring characters and their points of view as well as the concerns of contemporary society. The book includes extensive bibliographies grouped by author, geographic location, and dates of publication. **The Examiner** ,1846
