It aims at practitioners in a range of offshore industries and naval establishments as well as academic researchers and graduate students in ocean coastal offshore and marine engineering and naval architecture. The Springer Handbook of Ocean Engineering is organized in five parts: Part A Fundamentals, Part B Autonomous Ocean Vehicles Subsystems and Control, Part C Coastal Design, Part D Offshore Technologies, Part E Energy Conversion.

Port Engineering Gregory P. Tsinker, 2004-02-16. This comprehensive book covers all major aspects of the design and maintenance of port facilities including port planning, design loads for today's larger vessel size, seismic design guidelines and breakwater design. New material addresses environmental concerns, the latest developments on inter-modal hubs and transfer points and the latest information on port security and procedures being implemented around the world.

Handbook of Terminal Planning Jürgen W. Böse, 2020-09-14. Seaport Container Terminals (SCT) operate as central nodes in worldwide hub and spoke networks and link ocean-going vessels with smaller feeder vessels as well as with inbound and outbound hinterland transportation systems using road, rail or inland waterways. The volume of transcontinental container flows has gained enormously over the last five decades, frequently leading to double-digit annual growth rates for the SCT. The 2nd edition of the Handbook of Terminal Planning also deals with problems being induced by questions of terminal development on a long-term basis, strategic level. Facing present and upcoming challenges for SCT operation such as more and more mega vessels, extremely high hinterland peaks, higher environmental standards, less public acceptance and the stronger competition between terminals serving the same hinterland, the focus of the book is on successful approaches and solutions primarily addressing the planning of terminal structures. Nevertheless, operational aspects are considered as well as how they effectively contribute to problem solving on the strategic level.
