Reading Textbooks For Elementary School:

What Children Read in School Sara Goodman Zimet, 1972 Reading in the Elementary School George Daniel Spache, Evelyn B. Spache, 1975 **Textbooks in School and Society** Arthur Woodward, David L. Elliot, Kathleen Carter Nagel, 2013-08-21 Textbooks have been standard schoolroom fixtures for as long as most living citizens of this country can remember. Many turn of the century students were introduced to reading through the moralistic McGuffey Readers and struggled through the rather drab and colorless pages of volumes on history, geography, and civics. In contrast, today's textbooks contain not only narrative content accompanied by colorful photographs and graphics but also section and chapter exercises that are extended through the use of worksheets and other materials. Moreover, the textbook and its related student materials are packaged together with teacher's editions and tests in grade level sets that amount to content area programs rather than mere texts.

Reading in the Elementary School, 1949 Characters in Textbooks Jeana Wirtenberg, Robin Murex, Rose Ann Alspektor, 1980 *Reading and Learning to Read* Jo Anne L. Vacca, 2003 In this text, some of the core beliefs about reading and learning to read include the following: children use language to seek and construct meaning from what they read, hear, and view; reading, writing, speaking, listening, and viewing are interrelated and mutually supporting as children learn and use them; learning to read involves learning how to decode words quickly and accurately; children learn to read as they read to learn, enjoy, communicate, and solve problems; children need to be exposed to a broad spectrum of reading materials and literature; including electronic texts; children develop skills and strategies through explicit instruction and purposeful, meaningful use; children deserve assessment techniques and processes that mirror the authentic ways they demonstrate their continually developing literacy; children benefit from classroom communities in which materials, curriculum, instruction, practice, and assessment celebrate their diverse constitutions; teachers, parents, and administrators should make decisions based on how children learn and how they can best be taught. The text continues to emphasize a contemporary, balanced approach to teaching reading and writing with a renewed emphasis on integrating technology, accommodating the needs of diverse learners, developing early and beginning readers with a strong focus on phonemic awareness and strategies for teaching phonics, and teaching young adolescents in middle school.

Teaching Reading in Today's Elementary Schools Betty Roe, Sandra H. Smith, Nancy J. Kolodziej, 2018-02-08 TEACHING READING IN TODAY'S ELEMENTARY SCHOOLS sets the standard for reading instruction to ensure that aspiring teachers are able to help students learn the mechanics of word recognition, how to comprehend what they read, and enjoy the process. The book advocates a balanced approach to reading, presenting newer approaches with more traditional approaches that have proven value, such as phonics, vocabulary instruction, and strategies for literal and higher order comprehension. Practices are featured such as use of recent technologies for literacy learning, varying approaches with attention to dealing with the many types of diverse learners in today's classrooms, and use of close reading techniques with appropriate materials to enhance the learning experience.
