

Order of Operations and Algebraic Expressions Fall 2010

Always do everything **DOPE** parentheses first,
Then do all exponents,
Then all multiplication and division **FROM LEFT TO RIGHT**,
Finally, do all addition and subtraction **FROM LEFT TO RIGHT**.

- Suppose that there is a multiplication and no addition operation in a problem. Which operation is done first, and why?
- Suppose there is a subtraction and no addition operation in a problem. Which operation is done first, and why?
- Explain why some students think $3 + 2 \cdot 7$ equals thirty-five, which is incorrect. What is the correct answer?

Show each step for each problem below:

Richemond-Barak, 2017-12-27 This book is the first of its kind to examine tunnels from the perspective of international law with a view to minimizing the harm caused to civilians on all sides while keeping in mind the complexity of the operational and strategic challenges Dr Richemond Barak identifies issues unique to underground warfare including analyzing traditional international humanitarian law issues as they relate to tunnels and underground operations such as principles of dual use

Communications Regulation ,2003 **International Organizations and the Fight for Accountability** Carla Ferstman,2017-08-11 International organizations have increasingly taken on state or quasi state like functions in order to exercise control over individuals and societies most pressingly in contexts of conflict and transition Their engagement in peace operations has progressively widened with mandates now regularly including the protection of civilian populations and in several new operations containing peace enforcement responsibilities with active combat duties This increases the risk that their conduct may infringe human rights and international humanitarian law This book explores the ways in which the principles of accountability and reparation apply to international organizations When considering whether international organizations are obliged to afford reparation and to whom it is owed as well as what it entails we are confronted with the challenge of understanding how the law of responsibility intersects with specialized regimes of human rights and international humanitarian law particularly in its application to individuals The justifications for organizational immunities and other limits on international organizations responsibilities were conceived to ensure IOs independence from state influences and their capacity to engage in often difficult circumstances Many if not all of these rationales remain relevant today yet disciplinary oversight and judicial structures that exist in state administrations to promote accountability and forestall abuses have only partially been put into place for international organizations At the same time individuals affected by their conduct have had no or only cursory recourse to domestic regional and international courts and they have not been able to rely on their states of nationality to pursue claims on their behalf
