Hall, Naomi E. Langmore, 2017-09-11 Bird song traditionally regarded as primarily a male trait is in fact widespread among female songbirds and was probably present in the ancestor of modern songbirds Odom et al 2014 Nature Communications These recent findings challenge the view that sexual dimorphism in the expression and complexity of song is largely the outcome of sexual selection on males It is now clear that understanding the evolution of bird song requires explaining variation within and among species in the expression and complexity of female song To do this we need a better understanding of the nature of variation in female song in different contexts and systems as well as the fitness costs and benefits of variation in the expression and complexity of female song This Research Topic draws together current research on female song with the goal of understanding the fitness costs and benefits of the diversity of female singing behaviour apparent among songbirds It includes articles ranging from single species studies investigating how female song varies with context and contrasts with male song to comparative analyses exploring relationships between female song and ecological social and other factors as well as opinion pieces [Breakthrough BCI Applications in Medicine](#) Christoph Guger, Rossella Spataro, Adam Olding Hebb, Dean Krusienski, Vivek Prabhakaran, 2021-02-04 **Advanced Technological Solutions for E-Health and Dementia Patient Monitoring** Xhafa, Fatos, 2015-01-31 Mental health is a growing field but one still limited by a lack of prior research and challenged by increased demand for new solutions and treatments Mobile and web based technologies have the potential to fill some of the gaps Advanced Technological Solutions for E Health and Dementia Patient Monitoring provides comprehensive coverage of issues in patient health and support from the perspectives of doctors nurses patients and caregivers With its focus on challenges and opportunities as well as future research in the field this book is a vital reference for researchers scholars advanced students software developers managers and stakeholders working at the forefront of e health systems *Human Machine Interface-based Neuromodulation Solutions for Neurorehabilitation* Jing Wang, Haoyong Yu, Jinhua Zhang, 2022-10-06 *Handbook for Online Learning Contexts: Digital, Mobile and Open* Ann Marcus-Quinn, Triona Hourigan, 2021-05-29 This book addresses the gap in the literature concerned

with global case studies of successful Digital Mobile and Open Education The book shares experiences from international teaching and learning projects at all levels of Education and provides advice for future policy and investment in digital teaching and learning and Open Education projects It also provides an expectation on the future capacity and sustainability of Open Education *Political Communication in Real Time* Dan Schill,Rita Kirk,Amy E. Jasperson,2016-10-04 Much has been made of the speed and constancy of modern politics Whether watching cable news retweeting political posts or receiving news alerts on our phones political communication now happens continuously and in real time Traditional research methods often do not capture this dynamic environment Early studies that guided the study of political communication took place at a time when transistors and FM radio television and widely distributed films technologically changed the way people gained information and developed knowledge of the world around them Now the environment has transformed again through digital innovations This book provides one of the first systematic assessment of real time methods used to study the new digital media environment It features twelve chapters authored by leading researchers in the field using continuous or real time response methods to study political communication in various forms Moreover the authors explain how viewer attitudes can be measured over time message effects can be pin pointed down to the second of impact behaviors can be tracked and analyzed unobtrusively and respondents can naturally respond on their smartphone tablet or even console gaming system Leading practitioners in the field working for CNN Microsoft and Twitter show how the approach is being innovatively used in the field *Political Communication in Real Time* is a welcome addition to the growing field of interest in big data and continuous response research This volume will appeal to scholars and practitioners in political science and communication studies wishing to gain new insights into the strengths and limitations of this approach Political communication is a continuous process so theories applications and cognitive models of such communication require continuous measures and methods
