combines social research methods with coverage of statistical analysis to help students develop the applied research skills needed for future careers in public and private organizations while also delivering a solid foundation for those going on to graduate school Throughout the book the author offers a real world example and then breaks it down into a decision tree which helps lead students to a possible statistical decision rather than starting with the statistic This text gives students a toolbox of the most common and in demand skills and demonstrates how those skills can be used to make the best research decisions The book takes students through the entire real world research process from the formation of a research topic to measurement and sampling to methods for gathering information and making sense of the data and finally presenting to a non academic audience in a way that gets the job done Resources for instructors and students are available on an accompanying website for the book Society in Focus William E. Thompson, Joseph V. Hickey, Mica L. Thompson, 2016-04-20 Examining the role of mass media and information technology in contemporary society Society In Focus Eighth Edition emphasizes the increasing diversity and globalization of societies everywhere It is designed to help students think clearly and critically about sociological issues concepts and methods Questioning is at the heart of this approach and as students read this book they are encouraged to become part of the sociological enterprise rather than remain passive observers Every element of the text is designed to challenge students to evaluate social issues and guided by the sociological imagination to clearly formulate their own positions By asking questions that demand sociological and creative thought students are reminded that their conclusions and decisions as well as their non decisions and inaction may have important social consequences New to this edition New coauthor Mica Thompson an experienced teacher of introduction to sociology brings a fresh new perspective as well as a wide array of different life experiences to this edition of Society in Focus An expanded critical analysis in Chapter 1 introduces all forms of media and technology and every chapter

examines an aspect of their powerful social influence Chapters 9 16 and 17 have been updated to include the most recent worldwide financial and economic developments to help explain globalization and cultural diversity Expanded application of feminist theory in every chapter to help students recognize the importance of gender diversity and the contributions of that theoretical perspective in sociology Updated and brand new boxes throughout encourage students to take a closer look at society and selected social issues

Misogyny Gail Ukockis, 2019-01-16 Impassioned but practical this book dives into the topic of misogyny and proposes strategies for effective feminist action Gail Ukockis traces the history of misogyny and considers its meaning today what is new and what is old and offers concrete guidance as we strive for the egalitarian society that despite all setbacks we are capable of achieving

A Sociology of Mystic Practices Dann Wigner, 2018-06-08 This book investigates the process of spiritual borrowing between the emergent church EC and the Christian mystical tradition From its inception the EC has displayed interest in mystic practices but the exact nature of this interest or how these practices are appropriated and reinterpreted in the EC context has not been researched My research shows that the emergent church is appropriating Christian mystic practices by investing these practices with their own theological content The practices themselves are changed to fit in their new context showing that EC belief shapes EC behavior My study adds a new case study perspective to the sociological examination of the process of spiritual borrowing especially through close inspection of how a spiritual practice changes to fit a new theological context Additionally my book contributes to the study of the complex relationship between belief and behavior

The Way Class Works Lois Weis, 2009-09-10 This collection discusses conditions of social class and the ways in which class is produced in educational institutions and families while simultaneously interrogating and challenging our understandings of social class as it is linked to race gender and nation

Agent-Based Simulation: From Modeling Methodologies to Real-World Applications Takao Terano, Hajime Kita, Toshiyuki Kaneda, Kiyoshi Arai, Hiroshi Deguchi, 2006-06-18 Agent based modeling simulation is an emerging field that uses bottom up and experimental analysis in the social sciences Selected research from that presented at the Third International Workshop on Agent Based Approaches in Economic and Social Complex Systems 2004 held in May 2004 in Kyoto Japan is included in this book The aim of the workshop was to employ the bottom up approach to social and economic problems by modeling simulation and analysis using a software agent This research area is an emerging interdisciplinary field among the social sciences and computer science attracting broad attention because it introduces a simulation based experimental approach to problems that are becoming increasingly complex in an era of globalization and innovation in information technology The state of the art research and findings presented in this book will be indispensable tools for anyone involved in this rapidly growing discipline

Race and Identity in Hispanic America Patricia Reid-Merritt, Michael S. Rodriguez, 2020-04-03 This book offers a historical and comparative overview of the evolution of racial classifications in the United States Latin America and the Caribbean The Hispanicization of America is precipitating a paradigm shift in racial thinking in which race is no longer

defined by distinct characteristics but rather is becoming synonymous with ethnic cultural identity. Traditionally, assimilation has been conceived of as a unidirectional and racialized phenomenon. Newly arrived immigrant groups or longstanding minority indigenous populations were Americanized in confining their racial and ethnic natures to the private sphere and adopting in the public sphere the cultural mores, norms, and values of the dominant cultural racial group. In contrast, the Hispanicization of America entails the horizontal assimilation of various groups from Spanish-speaking countries throughout the Western Hemisphere and Caribbean into a pan-ethnic Hispanic/Latino identity that also challenges the privileged position of whiteness as the primary and exclusive referent for American identity. Instead of focusing on one Hispanic group, ethnic identity, or region, this book chronicles the development of racial identity across the largest Hispanic groups throughout the United States.

Research Methods for Law Mike McConville, Wing Hong (Eric) Chui, 2024-12-31 This third edition of *Research Methods for Law* offers students in a range of disciplines—law, sociology, psychology, criminology, forensic science, social legal studies, and social welfare—an advanced introduction to research methods in an accessible and grounded way. As well as covering theoretical, comparative, and interdisciplinary methods, the book breaks new ground by offering a focus on topics of contemporary and developing concerns in areas such as Artificial Intelligence, BRICS, Continental Legal Systems, Islamic Law, Gender, Race, and the Virtual World. The expert contributors draw on their vast experience in teaching and research to encourage students and provide sure pathways for their own enterprises with technical competence and adherence to ethical standards.
