The Story of Reason in Islam Sari Nusseibeh, 2016-11-09 In *The Story of Reason in Islam* leading public intellectual and political activist Sari Nusseibeh narrates a sweeping intellectual history a quest for knowledge inspired by the Qu'ran and its language a quest that employed Reason in the service of Faith Eschewing the conventional separation of Faith and Reason he takes a fresh look at why and how Islamic reasoning evolved over time He surveys the different Islamic schools of thought and how they dealt with major philosophical issues showing that Reason pervaded all disciplines from philosophy and science to language poetry and law Along the way the best known Muslim philosophers are introduced in a new light Countering received chronologies in this story Reason reaches its zenith in the early seventeenth century it then trails off its demise as sudden as its appearance Thereafter Reason loses out to passive belief lifeless logic and a self contained legalism in other words to a less flexible Islam

Nusseibeh's speculations as to why this occurred focus on the fortunes and misfortunes of classical Arabic in the Islamic world. Change, he suggests, may only come from the revivification of language itself.

Islam, Arabs, and the Intelligent World of the Jinn Amira El-Zein, 2009-10-16. According to the Quran, God created two parallel species: man and the jinn, the former from clay and the latter from fire. Beliefs regarding the jinn are deeply integrated into Muslim culture and religion and have a constant presence in legends, myths, poetry, and literature. In *Islam, Arabs, and the Intelligent World of the Jinn*, Amira El-Zein explores the integral role these mythological figures play, revealing that the concept of jinn is fundamental to understanding Muslim culture and tradition.

Technology and Theology William H. U. Anderson, 2021-01-05. Technology is growing at an exponential rate vis-à-vis humanity's ability to control it. Moreover, the numerous ethical issues that technology raises are also troubling. These statements, however, may be alarmist since Telus would tell us: The Future is Friendly. The Modernist vision of the future was utopic; for instance, *Star Trek* of the 1960s. But postmodern views such as are found in *Blade Runner 2049* are dystopic. Theology is in a unique interdisciplinary position to deal with the many issues, pro and con, that technology raises. Even theologians like Origen in the third century and Aquinas in the thirteenth century made forays into Artificial Intelligence and surrounding issues they just didn't know it at the time. Artificial Intelligence (AI) and Transhumanism raise questions about what it means to be human, What is consciousness? What is soul? What are life and death? Can technology really save us and give us eternal life? Theology is in a unique position to handle these questions and issues. This book also has practical applications in terms of ecclesiology, church in the context of the COVID-19 pandemic, both in terms of what it means to be a church and in terms of the sacraments or ordinances. Is there such a thing as a Virtual Church, or must we gather physically to constitute one? Are Baptism and Communion legitimate if one is not physically in a church building but

are online This book struggles with these and many other questions which will help the scholar or reader make up their own minds however tentatively

Islam's Jesus Zeki Saritoprak, 2020-05-01 Accessible and readable Spotlights an important theological theme in a way that both illuminates its internal development in Islamic thought and presents it as a helpful basis for interreligious discussion The topic is very much in need of teaching and discussion and is a fine example of common ground John Renard author of *Islam and Christianity* Contains valuable and fascinating material about how classical Muslim theologians treated various aspects of Jesus and in particular the role of Jesus in Islamic eschatology Saritoprak brings new insights from contemporary Turkish thinkers to bear on the issues raised by the Jesus figure in Islamic narratives about the Last Days Marcia Hermansen author of *Shah Wali Allah's Treatises on Islamic Law* A refreshingly easy read that makes a complex world of theology and interfaith relations accessible and enjoyable for readers of all backgrounds Jonathan Brown author of *Hadith Muhammad's Legacy in the Medieval and Modern World* Few people realize that Jesus was a prominent messenger of God in Islam and that Muslims believe in the return of Jesus Even among Muslims it is not well known that there are diverse interpretations of references to Jesus in the Qur'an and the Hadith Aiming to remedy this Islam's Jesus takes a bold yet candid look at the highly charged topic of Jesus's place in Islam exploring some of the religion's least understood aspects Examining multiple intellectual

traditions Zeki Saritoprak makes clear the reality of pluralism in the history of Islamic religious scholarship Actively engaged in efforts to promote interfaith dialogue and harmony Saritoprak thoughtfully argues that the shared belief in Jesus presents an excellent opportunity for understanding between Muslims and Christians Together they constitute more than half of the world's population and such understanding may be a foundation for peace

America and the Production of Islamic Truth in Uganda Yahya Sseremba, 2023-05-16 This book investigates the ways in which the war on terror has transformed the postcolonial state in Africa Taking American intervention in Islamic education in Uganda as the entry point the book demonstrates how state control over Islamic truth production and everyday Muslim life has increased During the colonial period the Muslims in Uganda were governed in two ways partly as lesser citizens within the Christian dominated civil sphere and partly as members of a distinct Muslim domain In this domain a local system of Islamic education developed with a degree of autonomy that reflected the limits of the colonial state in shaping the Muslim subject In the subsequent postcolonial period systems of patronage and clientelistic networks dominated and Muslim leaders were co-opted by the state but without much real interference in the day to day lives of ordinary Muslims However as part of the war on terror the US State Department seeks to bring the mechanisms of Islamic truth production especially the madrasa under direct state control and civil society scrutiny This book argues that the Muslim domain as a separate entity is coming to an end as it is being absorbed into the civil sphere unifying the state's domination of society The book also analyzes local Ugandan Muslim initiatives to modernise and contextualize their own education and religion and how these initiatives are shaped by and transcend the dominant power A thorough exploration of US foreign policy and Islamic education this book will be of interest to students and scholars in the fields of Political Studies African Studies and Religious Studies

Trajectories of Education in the Arab World Osama Abi-Mershed, 2009-09-10 In comparison to other parts of the developing world education in Arab countries has been lagging behind This book examines the impact of Western cultural influence the opportunities for reform and the sustainability of current initiatives

Islam and the Fate of Others Mohammad Hassan Khalil, 2012-05-03 Can non-Muslims be saved And can those who are damned to Hell ever be redeemed In *Islam and the Fate of Others* Mohammad Hassan Khalil examines the writings of influential medieval and modern Muslim scholars on the controversial and consequential question of non-Muslim salvation This is an illuminating study of four of the most prominent figures in the history of Islam Ghazali Ibn Arabi Ibn Taymiyya and Rashid Rida Khalil demonstrates that though these paradigmatic figures tended to affirm the superiority of the Islamic message they also envisioned a God of mercy and justice and a Paradise populated by Muslims and non-Muslims Along the way Khalil examines the writings of many other important writers such as Ibn Qayyim al-Jawziyya Mulla Sadra Shah Waliullah of Delhi Muhammad Ali of Lahore James Robson Sayyid Qutb Yusuf al-Qaradawi Farid Esack Reza Shah Kazemi T J Winter and Muhammad Legenhausen

Principles and Fundamentals of Islamic Management Seyed Mohammad Moghimi, 2018-11-30 Principles and Fundamentals of Islamic Management examines the concept of business and public management from the viewpoint of Islam. Providing a much needed insight into the practicalities of management operations in an Islamic context this book is essential reading for researchers managers and students. The Forbidden Tree and the Jinn Serkan Zorba, 2023-05-10 Foremost among the most alluring mysteries and symbolisms of the Quran are the concepts of jinn the Forbidden Tree and the expulsion of Adam and Eve from paradise aka the Fall of Adam or the Fall of Man. Notwithstanding the importance of these concepts to the Islamic religion and culture and the ever mounting modern scientific know how the contemporary Muslim understanding of them is truth be told nebulous. The legends of the Forbidden Tree and the Fall of Adam are central to the story of the creation of humanity's primogenitors not only in the Quran but also in the Bible. However the meaning and significance of these stories have not yet been rationally elucidated. Islamic scholars imams and the so called sheiks cannot shed much scholarly light to further our understanding of these topics as they almost never go beyond rehashing what is written in the traditional sources. Likewise Judaic and Christian authorities have not advanced any rationally satisfactory explanations for these narrations. In fact studying the contemporary Abrahamic religious cultural and self proclaimed scientific expositions on these subjects is an example of *obscurum per obscurius*. This book presents two bold ideas pertaining to these topics which are complementary to one another. 1 A novel interpretation of the Forbidden Tree and the Fall of Adam legends. It deciphers the true meaning behind the Quranic and Biblical accounts of Adam and Eve eating from this forbidden tree exposing their private parts incurring the punishments of having to constantly struggle for survival and of being enemies with other living beings and shedding blood. This interpretation also naturally resolves another age old enigma of God teaching Adam the names of all things. 2 It shows that the concepts of jinn and devils do not refer to supernatural beings as traditionally assumed but rather to tangible beings that are all important for the biosphere and human health and wellbeing. The interpretation that Dr Zorba has developed of these motifs is strictly based on a close reading of the Quran and the Hadith with the help of physics microbiology microbial ecology biogeochemistry and the fast emerging science of microbiota.
