
STATISTICS 1 MODULE REVISION SHEET

The S1 exam is 1 hour 30 minutes long and is in two sections.

Section A (36 marks) 5 questions worth no more than 8 marks each.

Section B (36 marks) 2 questions worth about 18 marks each.

You are allowed a graphics calculator.

Before you go into the exam make sure you are fully aware of the contents of the formula booklet you receive. Also be sure not to panic; it is not uncommon to get stuck on a question (I've been there!). Just continue with what you can do and return at the end to the question(s) you have found hard. If you have time check all your work, especially the first question you attempted... always an area prone to error.

J.M.S

1. Exploring Data

Measures of Central Tendency

- The mean (arithmetic mean) of a set of data $\{x_1, x_2, x_3 \dots x_n\}$ is given by

$$\bar{x} = \frac{\text{sum of all values}}{\text{the number of values}} = \frac{\sum_{i=1}^n x_i}{n} = \frac{\sum x}{n}.$$

When finding the mean of a frequency distribution the mean is given by

$$\frac{\sum(xf)}{\sum f} = \frac{\sum(xf)}{n}.$$

- If a set of numbers is arranged in ascending (or descending) order the *median* is the number which lies half way along the series. It is the number that lies at the $\frac{n+1}{2}$ position. Thus the median of $\{13, 14, 15, 15\}$ lies at the $2\frac{1}{2}$ position $\Rightarrow$ average of 14 and 15 $\Rightarrow$ median = 14.5.
- The *mode* of a set of numbers is the number which occurs the most frequently. Sometimes no mode exists; for example with the set $\{2, 4, 7, 8, 9, 11\}$. The set $\{2, 3, 3, 3, 4, 5, 6, 6, 6, 7\}$ has two modes 3 and 6 because each occurs three times. One mode $\Rightarrow$ "unimodal". Two modes $\Rightarrow$ "bimodal". More than two modes $\Rightarrow$ "multimodal".
- The *mid-range* is given by the average of the minimum and maximum values. Mid-range = $(x_{\max} + x_{\min})/2$.

Revision Notes For As Statistics Mei

Revision Notes For As Statistics Mei:

Health Care Financing Review, 1995 *International Population Statistics Reports*, 1962 *International Population Statistics Reports* United States. Bureau of the Census, 1965 **Mathematical Reviews**, 2004 **China Experiments** Ann M. Florini, Hairong Lai, Yeling Tan, 2012-01-06 All societies face a key question how to empower governments to perform essential governmental functions while constraining the arbitrary exercise of power This balance always in flux is particularly fluid in today's China This insightful book examines the changing relationship between that state and its society as demonstrated by numerous experiments in governance at subnational levels and explores the implications for China's future political trajectory Ann Florini Hairong Lai and Yeling Tan set their analysis at the level of townships and counties investigating the striking diversity of China's exploration into different governance tools and comparing these experiments with developments and debates elsewhere in the world China Experiments draws on multiple cases of innovation to show how local authorities are breaking down traditional models of governance in responding to the challenges posed by the rapid transformations taking place across China's economy and society The book thus differs from others on China that focus on dynamics taking place at the elite level in Beijing and is unique in its broad but detailed empirically grounded analysis The introduction examines China's changing governance architecture and raises key overarching questions It addresses the motivations behind the wide variety of experiments underway by which authorities are trying to adapt local governance structures to meet new demands Chapters 2-5 then explore each type of innovation in detail from administrative streamlining and elections to partnerships in civil society and transparency measures Each chapter explains the importance of the experiment in terms of implications for governance and draws upon specific case studies The final chapter considers what these growing numbers of experiments add up to whether China is headed towards a stronger more resilient authoritarianism or evolving towards its own version of democracy and suggests a series of criteria by which China's political trajectory can be assessed Contents 1 China at a Crossroads 2 Streamlining the State 3 The Evolution of Voting Mechanisms 4 Civil Society 5 From Local Experiments to National Rules China Lets the Sunshine In 6 Where is China Going **The China Review, Or, Notes and Queries on the Far East**, 1875 *Consumer Information in a Changing Health Care System* Judith A. Sangl, 1996 Describes several trends promoting more active consumer participation in health decisions how consumer info facilitates that role Major issues in developing consumer info are presented stressing how orientation to consumer needs use of social marketing techniques can yield improvement Discusses different aspects of info for choice of health plan ranging from consumer perspectives on their info needs their comprehension of quality indicators to methods used for providing such info such as direct counseling comparative health plan performance data Charts tables graphs
